de Pomis (David) [1525–78]. De medico Hebræo. Enarratio apologica, in qua tum quamplurima præclara alia notatu digna reperiuntur; tum etiam, quod magna inter Hebræum et Christianum adsit affinitas; quodque mutua inter eorum utrumque dilectio (jure divino) esse debeat, pervalidis rationibus, passim demonstratur. Apposita sunt præterea, non paucorum amplissimorum principum, quam multa decreta, in Hebræorum favorem constituta. Annectuntur, quin etiam, in tractatus calce, nonnulla aurea dicta, ex præscorum Hebræorum monumentis excerpta; nunc primum, latinitate donata, et ad studiosorum utilitatem in lucem edita. 7 p. l., 127 pp. sm. 4°. *Venetiis, apud J. Variscum*, 1588.

——. Enarratio brevis, de semen pulsantibus præcavendis atque curandis; rationali methodo decorata, æque atque præstantissimis arcanisque auxiliis, in quibusdam profligandis morbis, insignita. In qua, quod singulæ humani corporis pravæ constitutiones haud absque innati caloris oppressione defectuve oriri possint, passim, liquidoque, ostenditur. Accessit præterea, Dionis epistola, ad Antigonum Asiæ regem, pro tuenda valetudine conscripta; ac scholiis non spernendis exposita. 11 p. l., 4 ff., 5–82 pp., 1 l. sm. 4°. *Venetiis, apud J. Port Society of the City of Boston and its Vicinity. Annual reports of the board of managers to the society at the anniversary meetings. 3., 1831-2; **Port** Society of the City of Boston [etc.]—cont'd. 7., 1835-6; 11., 1839-40; 15., 1843-4; 18., 1846-7; 22., 1850-51; 24., 1852-3; 26. (?), 1855-6. 8°. *Boston*, 1832-56.
Organized Nov., 1828, and incorporated Feb. 27, 1829. Reports for 1832-3 to 1834-5 were not published. In March, 1867, united with the **Seamen's** Aid Society, under the title of: **Boston** Port and Seamen's Aid Society, which see for continuation.

della Porta (Giovanni Battista) [1536-16 5]. Magiæ naturalis, sive de miraculis rerum naturalium libri iv. 283 ff., 5 l. 24°. *Lugduni, apud G. Rovillium*, 1561.

——. The same. 7 p. l., 307 ff., 7 l. 24°. *Coloniæ, apud J. Birckmannum et W. Richwinum*, 1562.

——. The same. Magiæ naturalis libri viginti, in quibus scientiarum naturalium diviliæ et delliciæ demonstrantur, jam de novo, ab omnibus mendis repurgati, in lucem prodierunt. 18 p. l., 669 pp. 12°. *Francofurti, A. Wecheli heredes [et al.]*, 1597.

——. The same. Natural magick in twenty books. 1. Of the causes of wonderful things. 2. Of the generation of animals. 3. Of the production of new plants. 4. Of increasing household-stuff. 5. Of changing metals. 6. Of counterfeiting gold. 7. Of the wonders of the loadstone. 8. Of strange cures. 9. Of beautifying women. 10. Of destillation. 11. Of perfuming. 12. Of artificial fires. 13. Of tempering steel. 14. Of cookery. 15. Of fishing, fowling, hunting, etc. 16. Of invisible writing. 17. Of strange glasses. 18. Of statick experiments. 19. Of pneumatick experiments. 20. Of the chaos. Wherein are set forth all the riches and delights of the natural sciences. 2 p. l., 409 pp., 3 l. imp. 8°. *London, J. Wright*, 1669.

——. De refractione, optices parte, libri novem. 2 p. l., 230 pp., 2 l. 4°. *Neapoli, apud J. J. Carlinum et A. Pacem*, 1593.

——. De humana physiognomonia libri iiii; qui ab octaviis, quæ in hominum corporibus conspicuntur signis, ita eorum naturas, mores et consilia (egregiis ad vivum expressis iconibus) demonstrant, ut intimos animi recessus penetrare videantur. Omnibus omnium ordinum studiosis lectu utiles, maximeque jucundi. Nunc ab innumeris mendis, quibus passim mcapolitana scatebat editio, emendati, primumque in Germania in lucem editi. 7 p. l., 534 pp., 29 l., port. 8°. *Hanoviæ, apud G. Antonium*, 1593.

——. The same. 1 p. l., 272 pp. fol. [*Hanau*, 1593.]
Title-page wanting.

——. The same. 7 p. l., 534 pp., 29 l., port. 8°. *Urselliis, typ. C. Sadorii*, 1601.

——. The same. 5 p. l., 402 pp., 21 l. 12°. *Francofurti, apud N. Hoffmannum*, 1618.

——. The same. Della fisonomia dell' huomo libri sei, tradotti di latino in volgare, e dall' istesso auttore accresciuti di figure, e di passi necessarii à diverse parti dell' opera; et hora in questa terza et ultima editione migliorati in più di mille luoghi, che nella stampa di Napoli si leggevano scorrettissimi, et aggiontavi la fisonomia naturale di Monsignor Giovanni Ingegneri. 3. ed. 7 p. l., 222 ff. 4°. *Padova, P. Paolo*, 1622.

——. The same. Aggiontavi la fisionomia naturale di . . . Giovanni Ingegnieri, Polenone, e la celeste dello stesso Porta. In questa quinta et ultima impressione migliorati in più di due mila luoghi, che si leggevano scorrettissimi, et aggiontavi il discorso di Livio Agrippa sopra la natura, e complessione humana, et il discorso de' nei di Lodovico Settali. 5. ed. 5 p. l., 570 pp., 2 l. 4°. *Venetia, C. Tomasini*, 1644.

——. Cœlestis physiognomoniæ libri sex, unde quis facile ex humani vultus extima inspectione,

della Porta (Giovanni Battista)—continued. poterit ex conjectura futura praesagire. In quibus etiam astrologia refellitur, et inanis et imaginaria demonstratur. 1 p. l., 191 pp. 4°. *Neapoli, J. B. Subtilis*, 1603.

Imperfect.

——. The same. Della celeste fisonomia libri sei, nei quali ributtata la vanità dell' astrologia giudiciaria, si dà maniera di essattamente conoscere per via delle cause naturali tutto quello, che l' aspetto, la presenza, et le fattezze de gl' huomini possono fisicamente significare, e prometere; opera nuova, e piena di dotta curiosità. 5 p. l., 147 pp. 4°. *Padova, per P. P. Tozzi*, 1622.

Bound with his: Della fisonomia dell' huomo. 4°. *Padova*, 1622.

——. Histoire de l'anatomie et de la chirurgie, contenant l'origine et les progrès de ces sciences; avec un tableau chronologique des principales découvertes, et un catalogue des ouvrages d'anatomie et de chirurgie, des mémoires académiques, des dissertations insérées dans les journaux, et de la plupart des thèses qui ont été soutenues dans les facultés de médecine de l'Europe. 6 v. in 7. 8°. *Paris, P.-F. Didot le jeune*, 1770-73.

Title of v. 6 (in 2 pts.) is: Tableau chronologique des ouvrages et des principales découvertes d'anatomie et de chirurgie, par ordre des matières, pour servir de table et de supplement à l'histoire de ces deux sciences, [etc.].

——. Rapport fait par ordre de l'Académie des sciences, sur les effets des vapeurs méphitiques dans le corps de l'homme, et principalement sur la vapeur du charbon; avec un précis des moyens les plus efficaces pour rappeller à la vie ceux qui ont été suffoqués. 3. éd., à laquelle on a ajouté: 1° Un extrait de ce que l'on a écrit de plus important sur la cause de la mort des noyés, et sur les moyens de les rappeller à la vie; 2° Des remarques sur la méthode la plus avantageuse d'appeller à la vie quelques enfants qui paroissent morts en naissant. xvi, 92 pp. 16°. *Paris, Vincent*, 1775. [*Also, in:* P., v. 1637.]

——. The same. 3. éd. xvi, 92 pp. 16°. *Metz, J. Antoine*, 1776. [P., v. 1279.]

——. The same. Bericht über die mephitischen Dämpfe und vorzüglich des Kohlendampfs auf den menschlichen Körper, nebst einer kurzen Nachricht von den wirksamsten Mitteln Erstickte wieder zum Leben zu bringen. 3 p. l., 85 pp. 16°. *Frankfurt u. Leipzig, J. G. Fleischer*, 1778.

——. Observations sur les effets des vapeurs méphitiques dans l'homme, sur les noyés, sur les enfans qui paroissent morts en naissant, et sur la rage. Avec un précis du traitement le mieux éprouvé en pareils cas. 6. éd., à laquelle on a joint des observations sur les effets de plusieurs poisons dans le corps de l'homme, et sur les moyens d'en empêcher les suites funestes. xv, viii, 492 pp., 2 l. 8°. *Paris, imp. royale*, 1787.

A much enlarged edition of the preceding work.

——. Observations sur la nature et sur le traitement de la rage, suivies d'un précis historique et critique des divers remèdes qui ont été employés jusqu'ici contre cette maladie. ix (1 l.), 130 pp., 1 l. 16°. *Yverdon*, 1779. [P., v. 1637.]

Portal (Antoine)—continued.

——. The same. Bemerkungen über die Natur und Heilung der Wuth vom Biss toller Thiere. Nebst einer kurzen litterarischen Anzeige der über diese Materie erschienenen Schriften und der bis jetzt wider diese Krankheit vorgeschlagenen Mittel. Aus dem Französischen. 4 p. l., 206 pp. 12°. *Leipzig, J. S. Heinsius*, 1782.

——. Instruction sur les traitemens des asphixiés par le méphitisme; des noyés, des personnes qui ont été mordues par des animaux enragés, des enfans qui paroissent morts en naissant, des personnes qui ont été empoisonnées; de celles qui ont été réduites à l'état d'asphixie par le froid; avec des observations sur les causes de ces accidens, et sur les signes de la mort réelle pour la distinguer de celle qui n'est qu'apparente. 153 pp., 1 l. 12°. *Paris, Régent & Bernard, an IV* [1796].

——. The same. 103 pp., 2 l. 12°. *Commercy, Denis, an V* [1797].

——. The same. Nouv. éd. xii, 136 pp. 12°. *Paris, J.-J. Marcel, an XIII* [1805].

——. Observations sur la nature et sur le traitement du rachitisme, ou des courbures de la colonne vertébrale, et de celles des extrémités supérieures et inférieures. viii, 388 pp. 8°. *Paris, Merlin*, 1797.

——. The same. Beobachtungen über die Natur und die Behandlungsart der Rachitis, oder der Krümmungen des Rückgrathes der obern und untern Extremitäten. xvi, 232 pp. 8°. *Weissenfels u. Leipzig, F. Severin u. Comp.*, 1798.

——. The same. Osservazione sulla natura e sul trattamento della rachitide, ovvero delle curvature, della colonna vertebrale e di quelle dell' estremità superiori ed inferiori. Trad. dall' originale francese coll' aggiunta di alcune illustrazioni ed annotazioni, e della dissertazione di E. J. B. Bouillon Lagrance sopra il sciroppo mercuriale detto di Belloc, e della lettera del suddetto Sig. Portal al medesimo Lagrance sopra lo stesso sciroppo. xxiv, 359 pp. 8°. *Venezia, G. Pasquali*, 1802.

——. Mémoires sur la nature et le traitement de plusieurs maladies, avec le précis des expériences sur les animaux vivans, d'un cours de physiologie pathologique. 4 v. 8°. *Paris, Bertrand, an IX* [1800]-1819.

Tome quatrième, contenant des observations et des remarques sur plusieurs maladies du cœur, sur les inflammations des membranes, le vomissement, les antidotes ou contre-poisons, et sur quelques autres points d'anatomie médicale.

——. The same. 5 v. 8°. *Paris, A. Bertrand*, 1800-25.

——. Cours d'anatomie médicale, ou élémens de l'anatomie de l'homme, avec des remarques physiologiques et pathologiques, et les résultats de l'observation sur le siége et la nature des maladies, d'après l'ouverture des corps. 5 v. 8°. *Paris, Baudouin, an XII*, 1804.

——. The same. 5 v. 4°. *Paris, Baudouin, an XII*, 1804.

——. Considérations sur la nature et le traitement de quelques maladies héréditaires ou de famille. 48 pp. 4°. *Paris, Baudouin*, 1808.

——. The same. 3. éd., augmentée de plusieurs observations de l'auteur, de celles de M. Mazzoni, et de celles de M. Joseph Adams. xii, 101 pp. 8°. *Paris, Crochard [and others]*, 1814.

——. Observations sur la nature et le traitement de la phthisie pulmonaire. Édition revue et augmentée par l'auteur, avec des observations et des remarques par Georg Friedr. Mülry, qui a traduit cet ouvrage en allemand, et avec celles de M. Gaspard Fédérigo, qui la traduit en italien. 2 v. xlvii, 571, 564 pp. 8°. *Paris, L. Collin*, 1809.

Portal (Antoine)—continued.

——. The same. Beobachtungen über die Natur und Behandlung der Lungenschwindsucht. Aus dem Französischen mit Anmerkungen von Georg Friedr. Mülry. 2 v. in 1. xii, 339 pp.; iv, 218 pp. 8°. *Hannover, Gebr. Hahn*, 1799-1802.

——. The same. Osservazioni sulla natura, e sul trattamento della tisi polmonare. Trad. dal francese nell' 1800 in italiano, ed illustrato con alcune annotazioni ec. dal Gaspare Federigo. 3 v. 12°. *Venezia*, 1801.

MANNINGHAM (*Sir* R.) Aphorismata medica; quibus, tam bona quam mala, valetudo mulierum, præcipue utero gerentium a conceptu usque ad puerperium, depingitur . . . Accesserunt morbos dignoscendi methodus certissima unde curationes efficacissimæ colliguntur, et consilium apprime necessarium in dubia puerertim re, quo tuto semper sanguis mittatur. 12°. *Londini*, 1756.

MAURICEAU (F.) Traité des maladies des femmes grosses, et de celles qui sont accouchées, [etc.] 3. ed. 4°. *Paris*, 1681.

———. The same. Dernière éd., corrigée par l'auteur. 4°. *Paris*, 1683.

———. The same. 6. éd., corrigée par l'auteur, et augmentée de plusieurs nouvelles figures, et de beaucoup d'observations très-considérables, avec des aphorismes qui contiennent tous les principaux préceptes de l'art. 2 v. 4°. *Paris*, 1721-8.

———. The same. 7. éd. 2 v. 4°. *Paris*, 1738-40.

———. The same. De mulierum prægnantium, parturientium, et puerperarum morbis, tractatus, [etc.] 4°. *Parisiis*, 1681.

———. The same. Tractat von Kranckheiten schwangerer und gebärender Weibspersonen . . . aus dem Frantzösischen in das Teutsche übersetzet. 4°. *Basel*, 1680.

———. The same. Der schwangern und kreissenden Weibs-Personen allerbeste Hülffleistung. Das ist: Wahrer und gründlicher Bericht, wie denenselben, mit gutem und füglichem Vortheil, in ihrem sewel natürlichen, als unterweilen auch wider die Natur laufenden Kindthaben, glücklich beyzustehen. Ingleichem, was vor bewährte und höchstdienliche Mittel denen neugebornen Kindern, in ihren Unpässlichkeiten, zu gebrauchen; und dann, was es vor eine eigentliche Beschaffenheit mit denen gewidmeten Gliedern und Theilen der Weibs-Personen habe. Ein denen Wund-Aerzten sehr nützliches, wie auch allen Hebammen, zu Begreiffung des Kindhabenskunst, höchst-nothwendiges Werk. Erstesmals in französischer Sprache affections . . . Nachmals aber, von einem Liebhaber der Arzney-Kunst, ins Teutsche übersetzet, und zum Druck befördert. 12°. *Nürnberg*, 1681.

———. The same. Tractaet van de siektens der swangere vrouwen en der gene die eerst gebaert hebben . . . Uit het Frans vertaelt. sm. 4°. *Amsterdam*, [1683].

———. The same. Uit het Frans vertaelt. 2. ed., vermeerdert met eenige verhandelingen, over de voornaamste ondekkingen, welke zedert F. Mauriceau in de verloskunde gedaan zyn. Door Petrus Camper. sm. 4°. *Amsterdam*, 1759.

———. The same. Trattato delle malattie delle donne gravide e delle infantate . . . 4°. *Cologni*, 1684.

———. The same. Con molte belle e nuove figure. Opera utile a' chirurghi, e necessaria a tutte le mammane per imparare la pratica de' parti. 4°. *Genevra*, 1727.

———. The same. The accomplisht midwife, treating of the diseases of women with child, and in child-bed As also, the best directions how to help them in natural and unnatural labours; with fit remedies for the several indispositions of new born babes. Illustrated with divers fair figures, newly and very correctly engraven in copper. A work much more perfect than any yet extant in English; being very necessary for all teeming women, as also for all physicians, chirurgeans, and midwives that practise this art . . . Transl., and enlarged with some marginal notes, by Hugh Chamberlen. 8°. 8°. *London*, 1673.

———. The same. The diseases of women with child, and in child-bed; as also the best means of helping them in natural and unnatural labours . . . Transl. by Hugh Chamberlen. 6. ed. 8°. *London*, 1727.

———. Observations sur la grossesse et l'accouchement des femmes, et sur leurs maladies et celles des enfans nouveau-nez. En chacune desquelles les causes et les raisons des principaux évènemens sont décrites et expliquées. 8°. *Paris*, 1695.

———. The same. 4°. *Paris*, 1715.

———. Dernières observations sur les maladies des femmes grosses et accouchées. 4°. *Paris*, 1715.

———. The same. Nouv. éd. 4°. *Paris*, 1728.

GREAT BRITAIN.

Account (An) of the present state of the prisons and houses of correction in the Sheriffdom of Lincolnshire, with a few observations on the subject. 12°. *London*, [1789?].

Bath Penitentiary and Lock Hospital. Reports and proceedings of the . . . from the year 1816 to the annual meeting held Feb. 2, 1821. 8°. *Bath*, 1821.

Great Britain. *Army.* Annual reports on the discipline and management of the military prisons for the years 1871; 1873-5; 1884; 1887; 1888. By Maj.-Gen. E. F. Du Cane, inspector-general of military prisons. 8°. *London*, 1872-89.

Great Britain. *Commissioners of Prisons.* Reports of the commissioners of prisons, with appendices. (Pts. 1 & 2). 4.-6., 1880-81 to 1882-3; 9.-12., 1885-6 to 1887-9. 8°. *London*, 1881-9.

Great Britain. *General Prison at Perth.* Annual report of the resident surgeon to the managers. 26., 1864. fol. [*Edinburgh*, 1865.]

Great Britain. *Inspector of Reformatory and Industrial Schools.* Annual report of the inspector, appointed under the provisions of the act 5 & 6. Will. IV, c. 38, to visit the certified reformatory and industrial schools of Great Britain. 28., 1884. 8°. *London*, 1885.

Great Britain. *Lord Lieutenant and Privy Council of Ireland.* Annual reports of the general prisons board, Ireland, to the lord lieutenant. With appendices. 6., 1883-4; 7., 1884-5. 8°. *Dublin*, 1884-5.

——. Annual report of the inspector of reformatory and industrial schools of Ireland to the chief secretary to the lord lieutenant. 27., 1888. 8°. *Dublin*, 1889.

——. Prisons (Ireland). Two orders in council approving of rules made by the general prisons board for Ireland on the 26th and 27th of March, 1889. (Presented pursuant to act of Parliament.) 3d April, 1889. fol. *London*, 1889.

Great Britain. *Parliament.* Return of recommendations of the royal commission in regard to the treatment of prisoners in Irish prisons; with observations of the general prisons board, 6th March, 1889. fol. *Dublin*, 1889.

Prisons *and reformatories* (*Descriptions, reports, regulations, and condition of*), *by countries.*

GREAT BRITAIN—continued.

GREAT BRITAIN. *Secretary for Scotland.* Report of the committee on the accommodation for prisoners awaiting trial at courts in Scotland, where the presiding judge is a justiciary judge, a sheriff, a sheriff-substitute, or a burgh magistrate. fol. *Edinburgh*, 1889.

———. Prisons (Scotland). Copy of rules made by the secretary for Scotland (1) appointing police cells in the burgh of Inveraray to be a legal prison; and (2) as to the appointment of a visiting committee to the said police cells prison. 18th July, 1889. fol. *London*, 1889.

GREAT BRITAIN. *Secretary for Scotland. Prison Commissioners for Scotland.* Annual reports, being (in continuation of the reports of the late general board of prisons and the managers appointed under the act of 1860) on prisons in Scotland. 9.-11., 1886-7 to 1888-9. fol. *Edinburgh*, 1887-9.

GREAT BRITAIN. *Secretary of State for the Home Department.* Extracts from the second report of [William Crawford and Whitworth Russell] the inspectors of prisons for the home district; addressed to the Rt. Hon. the secretary of state for the home department. 8°. *London*, 1837.

Reprinted by the Philadelphia Society for Alleviating the Miseries of Public Prisons. Philadelphia. 1838.

———. Report of the surveyor-general of prisons on the construction, ventilation, and details of Pentonville Prison. [By J. Jebb.] 8°. *London*, 1844.

———. Second report of the surveyor-general of prisons. 8°. *London*, 1847.

———. Report on the discipline and construction of Portland Prison, and its connection with the system of convict discipline now in operation. By J. Jebb. 8°. *London*, 1850.

———. Report on the discipline and management of the convict prisons. 1850. [Also, comparative abstract of the estimates for the maintenance of the convict prisons for the years 1850-51 and 1851-2.] By Lieut.-Col. J. Jebb. 8°. *London*, 1851.

———. Report on the discipline and management of the convict prisons, and disposal of convicts, 1851, with notes on the construction of prisons, treatment and disposal of juvenile offenders, etc. By Lieut.-Col. J. Jebb. 8°. *London*, 1852.

———. General report on the convict prisons, with observations on several questions connected with the management and disposal of convicts, tickets-of-leave, supervision of the police, the Irish system, etc.; together with suggestions concerning prison discipline and construction, 1860-61. By Maj.-Gen. Sir J. Jebb. 8°. *London*, 1862.

———. Annual reports of the directors of convict prisons. With appendices, for the years 1865; 1869; 1884-5 (Pt. 2); 1885-6 (Pt. 2); 1886-7 (Pt. 2); 1887-8 (Pts. 1 & 2); 1888-9 (Pt. 1). 8°. *London*, 1866-89.

———. Inspector of prisons. Annual reports of the inspectors appointed, under the provisions of the act 5 & 6 Will. IV. c. 38, to visit the different prisons of Great Britain. I. Southern district. 33., 1867-8; 34., 1868-9. 8°. *London*, 1869-70.

———. II. Northern district. 34., 1868-9. 8°. *London*, 1870.

———. Report of the committee on the accommodation provided for prisoners in the police courts of the metropolis and all buildings in England and Wales in which courts of summary jurisdiction are held. 8°. *London*, 1888.

HOLFORD (G.) A short vindication of the general penitentiary at Millbank; from the censures contained in "a letter addressed by C. C. Western, esq., to the lord lieutenant and magistrates of the county of Essex"; to which are added a few remarks on the punishment of juvenile offenders. 8°. *London*, 1822.

———. The convict's complaint in 1815, and the thanks of the convict in 1825; or, sketches in verse of a hulk in the former year, and of the Millbank Penitentiary in the latter; being an attempt to describe in lines, supposed to be written by prisoners, first, the condition of convicts in a prison, which provides simply for the safe custody of the person of the offender, and secondly, their treatment under an improved system of management at Millbank. With a few prefatory statements and remarks. 8°. *London*, 1825.

———. Letter to the editor of the Quarterly Review, on a misstatement contained in the 42d volume of that work, page 235, relative to the supposed ill-success of the General Penitentiary at Millbank. 2. ed. To which is added a postscript, occasioned by Sir Robert Peel's speech in the House of Commons, on the discussion of the annual vote for the expenses of the penitentiary, on the 21st of May, 1830. 8°. *London*, 1830.

HUTCHINSON (A. C.) A statement of the transactions on occasion of the extraordinary sickness which has lately occurred at the General Penitentiary at Millbank. 8°. *London*, 1823.

LANCASTER County, England. *Preston House of Correction.* Chaplain's report to the magistrates of Lancashire. 26., 1849. 8°. *Preston*, 1850.

LEEDS Society for the Reformation of Juvenile Offenders. Annual report of the committee to the subscribers, with rules and a list of the donors and subscribers. 27., 1883. 8°. *Leeds*, 1884.

LIVERPOOL Borough Prison. Annual reports of the governor, chaplain, and surgeon, presented to the court of gaol sessions for the year 1855-6. 8°. *Liverpool*, 1856.

PHILANTHROPIC Society, London. Annual reports of the committee of management to the members of the society. 1.-3., 1788-9 to 1791; 19., 1807; 20., 1808; 23., 1817; 50., 1838. 8° & 12°. *London*, 1789-1839.

———. Reformation of juvenile offenders. The Philanthropic Farm School, Readhill, Surrey. 12°. *Reigate*, 1850.

———. Report of the sub-committee respecting the improvements which have been lately made in the prisons and houses of correction in England and Wales. 8°. *London*, 1790.

SALFORD. Special report on the state of juvenile education and delinquency in the borough of Salford. Dedicated by permission to Thomas Agnew, esq., manager of that borough. To which is added an appendix containing observations on the state of crime in Salford, and in the country generally; on ragged or industrial schools, and on reformatory institutions for criminals; and in which are also noticed the schemes of education proposed by the National Public School Association, and the committee of the Manchester and Salford municipal boroughs' educational bill. By Stephen Neal. 8°. *Salford*, 1851.

Prisons *and reformatories* (*Descriptions, reports, regulations, and condition of*), *by countries.*

GREAT BRITAIN—continued.

SCOTTISH Ladies' Society for Promoting the Reformation of Destitute Females, Edinburgh. Annual reports of the committee of the . . . in prisons and other institutions in Edinburgh and throughout Scotland. 6., 1839–40; 7., 1840–41. 8°. *Edinburgh*, 1840–41.

Guy (W. A.) On some results of a recent census of the population of the convict prisons in England; and especially on the rate of mortality at present prevailing among convicts. Tr. Nat. Ass. Promot. Social Sc. 1862, Lond., 1863, 561–580. ———. On the mortality of London hospitals; and incidentally on the deaths in the prisons and public institutions of the metropolis. J. Statist. Soc. Lond., 1867, xxx, 209–318. *Also*, Reprint.—**Lettsom** (J. C.) Hints respecting the prison of Newgate. Mem. M. Soc. Lond., 1795, iv, 321–341, 2 pl.—**Horsley** in metropolitan prisons.
