Dear Miss Franklin,

As I have never worked with the Ribgrass strain of tobacco mosaic virus, I am not quite sure what tests I can make to identify your specimen with certainty. However, I will do enough tests at least to show whether or not it could be the type strain.

Did you ever make any measurements on the strain from leguminous plants that I sent you some months ago? We have not yet started any work with potato virus X, but, when we do have a purified preparation I will send you some.

Yours sincerely,

F.C.Bawden

(F.C.Bawden)

Miss R.Franklin,
Birkbeck College Crystallography Laboratory,
21, Torrington Square,
London, W.C.1.
