

THE WHITE HOUSE
WASHINGTON

July 30, 1968

Dear Mary:

I've just read the book on the Federal Health Programs you gave to the President the other day. The wonderful thing about this book is that it is an understandable capsule account which even a person constantly on the run (as we all are today) may read, and, better than that, take in and remember. The pictures add so graphically to one's understanding of this poignant yet exciting subject.

You do so much. I wanted to add my thanks to the many millions of others.

With dearest love,

Lady Bird

Mrs. Albert D. Lasker
