Dr. Michael E. DeBakey,
Baylor University,
Department of Surgery,
HOUSTON.
T E X A S.

Dear Mike,

I read with great interest your interview with President Johnson in "Time" magazine and whole heartidly agree with your views on this matter.

I was particularly interested to learn that there is hope that proper centres will be setup for the treatment of heart disease throughout the country. I have had this in mind for coronary artery disease for some time and would appreciate any help that I can get from you concerning the setting up of such a centre in Canada both from the point of view of organization and of funds.

I hope that this letter finds you well.

I remain,

Your friend,

ARTHUR M. VINEBERG, M.D.
Surgeon-in-Charge.
Sub. Dept. of Cardiac Surgery.
