DEPARTMENT OF GENETICS

September 23, 1952.

Dear Ed:

Paper looks fine! As to exptl. collaboration, it would be great fun. I have a 12-mo. appointment here, but can take leave (½ pay) for summer positions elsewhere.

Unless something special comes up, would you manage proof? I'll send you completed reprints as they come up. I would like a fair number of reprints (400-500) but it depends on the price (say up to $25). Perhaps they could send each of us an order blank, and we would prorate the final charges.

Sincerely,
Joshua (Cover)
