

Sept Oct. 2, 1947.

Dear Ed-

Enclosed is a bill~~g~~ for Salmonella reprints.

The two 1.5c stamps are for Betty Zulkowski for postage.

I sent you mimeographed sheets of part of the Isotope conference that was held here about Sept. 13. If you'd like, and you think it worth my trouble, I'll try to send you the summaries of the Fermentation and the Microbial Genetics Seminars. Could you do likewise.

You may be interested that Paragon Testing Labs is quoting proline and hydroxyproline respectively for immediate delivery at 2.00 and 4.00 per gram respectively, after discount. Snell says that Difco has been delivering in the past several months on asparagine.

Best regards,

Joshua.
