August 24, 1953

DR. L. L. Waters
Childs Fund for Medical Research
333 Cedar Street
New Haven 11, Conn.

Dear Dr. Waters:

In reply to your letter of the 13th, may I refer to my letter last year, August 12, addressed to Mrs. Holbrook which is still a correct account of the research going on in this laboratory.

I am also enclosing a bibliographic list, brought up to date.

Finally, I may note that I have just returned from a trip to San Francisco to receive the Eli Lilly Co. Award of the Society of American Bacteriologists. The research for which this award was made stems directly from my association at Yale University with Professor E. L. Tatum, which had been made possible by the support of the Childs Fund.

Yours sincerely,

Joshua Lederberg
