Dear Barbara -

JUL 2 1993

W1485 = ( $\lambda^-$ ) K12

If David Thaler hasn't already  
shown you, may I request a  
culture of W1485 = K-12  $\lambda^-$ ?  
If that's not handy any com-  
parable ( $\lambda^-$  lac<sup>+</sup> Mal<sup>+</sup> preferably  
prod<sup>+</sup> type).

Once again,  
Thank you!

Yours  
Josh
