

Personal Memo from
JOSHUA LEDERBERG

Dr. Hamme Gray
Pres. U/Chicago

JUN 17 1989

G. W. Beadle papers/archives

Dear Hamme -

APS has asked me to write
a brief memoir on Beadle.

My focus will be on the scientific
revolution (not a Kuhnian) he and
Tatum wrought in 1941; but I
should include a paragraph or two
on his term as president of U/Chi.

As a historian, you will know
what I need by way of sources;
but I am not (now) drafting a
detailed biography; so I would welcome
even your ^{*}own draft on a non-
attributed basis.

(*or hand this over to your PTO/
archivist. If there ^{are} any published assess-
ments of that era they would be quite
helpful.)

With best regards,

JL
