Dear Joshua,

I'm late in replying to your letter regarding Ed Saturn as I'm not going to my office very often this time of year.

I did know Ed quite well but it was only after he left Madison that I knew his work. I contacted Elizabeth McCoy, she hadn't known him well either. I finally got a hold of Bill Barber and am enclosing what he has to say about Ed.

Since Ed was younger and worked down in Biochemistry our paths didn't cross too much in those days. Bill knew Ed at that time as they were both Madison boys. I hope this will help meet your needs.

Kind personal regards,
Perry
