Dr.J.Lederberg
Dept. of Genetics
University of Wisconsin
Madison,Wisc.

Dear Doctor Lederberg:

I happen to recover your address - which had been lost - and so I take great pleasure in sending the enclosed reprint. Unfortunately, extraneous circumstances made it impossible for me to continue the work in this field. I hope you are able to work on microbial genetics, and I would like to hear occasionally how and what you are doing.

With best wishes
Sincerely yours,

A.J.Weil
