Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
College of Agriculture
Madison 6, Wisconsin

Dear Dr. Lederberg:

I am writing to request a few strains of your E. coli to use in further tests of recombination phenomenon. These are Y-87 and some others with three nutritional mutants (we have Y-58, Y-52, Y-10). You mentioned that you had some additional stocks of this nature. Two or three would help us a lot. Thank you.

Yours sincerely,

Wilson S. Stone
