Dear Dr. Lederberg: *Joshua*

1 \* It was a great disappointment to me that I was delivering papers in Richmond, Virginia when you and Herb Simon were offering papers in Pittsburgh. I would very much appreciate receiving a copy of your paper "Automated Thinking About Structural Problems in Organic Chemistry" if one is available. As I have mentioned before, I would be very happy to receive other of your papers on subjects which would be comprehensible to me.

2 My fantasy was acutely stimulated by wondering what Oliver Selfridge would say about your paper and Herb Simon's. I have written to Benjamin Kleinmuntz to see if they made a tape recording.

With best personal wishes.
