RESEARCH PROGRAM:

BIOMEDICAL KNOWLEDGE REPRESENTATION

NLM.

Submitted to the
National Library of Medicine

February 1979

Department

ersity

Computer Science

Stanford Univ

TABLE OF CONTENTS

PART A -- ADMINISTRATIVE PAGES

Section		Page
I.	RESEARCH OBJECTIVES	2
II.	BUDGETS	3A
	II.A. Administrative and Core Research	3B
	II.B. Project 1	3D
	II.C. Project 2	3F
	II.D. Project 3	3H
III.	BUDGET NOTES	3J
IV.	CURRICULA VITAE	4

PART B -- RESEARCH PLAN

Section		Page
I.	THE PROGRAM PROPOSED	1
	I.A. Rationale for the Program	3
	I.B. Resources that exist to aid this project	20
	I.C. Significance	21
II.	PROJECT 1 --CODIFICATION AND USE OF MEDICAL KNOWLEDGE IN ONCOLOGY	24
	II.A. Introduction	24
	II.B. Specific Aims	30
	II.C. Methods	33

III. PROJECT 2 -- A WORKBENCH FOR KNOWLEDGE REPRESENTATION 37

III.A. Objectives of the Research and their Significance 37

III.B. Background and rationale 38

III.C. Methods of procedure 41

III. PROJECT 3 -- CODIFICATION AND USE OF MEDICAL KNOWLEDGE IN CLINICAL LABORATORIES . . . 67

III.A. Objectives 69

III.B. Background and rationale 70

III.C. Methods 73

IV. CORE RESEARCH 92

IV.A. Objectives of Research 92

IV.B. Background and Rationale 93

IV.C. Methods of Procedure 99

IV.D. Significance 106

V. FACILITIES AVAILABLE 107

V.A. Hardware 107

V.B. Software and Personnel 107

VI. COLLABORATIVE ARRANGEMENTS 109

VII. PRINCIPAL INVESTIGATOR ASSURANCE 110

VIII. APPENDIX A 111

IX. APPENDIX B 144

X. APPENDIX C 188
