DEPARTMENT OF GENETICS

November 27, 1962

Professor Joshua Lederberg  
Department of Genetics  
Stanford University  
Medical Center  
Palo Alto, California

Dear Josh:

We are genuinely disappointed that you are unable to give the dedicatory lecture next spring marking occupation of our new laboratory. I shall convey your good wishes to the group at our next meeting.

Staffing continues to be difficult. Dan Lindsley has just declined an offer to succeed Larry Sandler whose earlier loss to Washington several of us much regret.

Cordially yours,

R. A. Brink  
Professor of Genetics
