

Personal memo from
JOSHUA LEDERBERG

Surg. Ch. Davis
M.O.D.

JUN 21 1991

Dear Dr. Davis

Delighted to hear from you.

My "vague" address is quite sufficient; but here is a card with more detail.

At moment I am quite upset by what seems to me the nonchalant approach being taken to suspect Iraq BW sites on the part of the UN commission. But I have been knocking on a lot of doors to try to organize a more concerted plan for exploitation and analysis. By the time the teams are on site they may be all cleaned up!

I notice the name of a Prof. Bryan C. Boness as a UN member of the CWI working group. Should you know him, would you communicate to him what needs to be done to make this an effective inquiry? I feel it imperative to get out the physical evidence of the Iraqi BW program to provide publicly accessible substantiation.

Sincerely,
Joshua

BW I

P.S. Thank you for the historical notes. Fascinating.

P.P.S. Have you ever seen Ingmar Bergman's film *The Seventh Seal*?

I'm in Washington average 1 day per week. Let me know, please, when you might be.

J.
