Attention: Prof. Joshua Lederberg

Dear Prof. Lederberg:

Thank you for your letter of June 30th, and I am turning over the information to Dr. Oesting. I will also call his attention to your request to him as to where you can obtain the compounds mentioned.

No doubt Dr. Oesting will do some work on developing preparations discussed between you and he during our last visit.

We appreciate your cooperation and when Dr. Oesting thinks his work has progressed to a point where he would like to visit you again, we will contact you for an appointment.

Sincerely,

PAUL-LEWIS LABORATORIES, INC.

Norman Gross
