AIR MAIL 1941

THIS SIDE OF CARD IS FOR ADDRESS

Mr. J. Lederberg
Osborn Botanical Laboratory
Yale University
New Haven, Conn.

Dear Joshua,

5/20

Could you send me (air mail) the reprints of Kristensen dealing with the pentose inhibition? My student is writing her thesis and badly needs them. If you send them immediately, we shall only keep them 3 days.

I shall send on Thursday the stocks of phage + bacteria that you need.

Thanks.

Yours.

Lucia
