

Cold Spring Harbor

THIS SIDE OF CARD IS FOR ADDRESS

Dr. S. Lederberg
Dept. Genetics
University of Wisconsin
Madison, Wisconsin

6/26/1948

Dear Joshua,

One of my students in Bloomington, would like to try some studies on the mechanism of the "Lederberg phenomenon". She only has some single mutants as yet. Could you send her a pair of double mutants, for ex., the pair you sent to Szilard?

Her address is: Helen Kann, Bacteriology Dept., Indiana Univ.

Thank you very much. I imagine she will run into all the complications of partial growth, etc., which you met.

Best regards, Luria
