College of Agriculture
University of Wisconsin
Madison 6, Wisconsin

Dear Josh:

I have been meaning to write to you and Esther to thank you for all your kindness during our recent visit to Madison.

I have heard from Jacob that he has no objections to my releasing *the* tumefaciens mutants. When I return from California I will send you them. I will probably also give them to Dick Klein, although I am quite angry with him.

Best regards to Esther and the Crows.

Sincerely,

Aaron Novick

AN:sk

P.S. I saw Bernie Davis and converted him from confessed disbelief in Duplicons to an admission of the possibility that they may exist.
