Dear Mr. Lederberg:

I have sent you under separate cover reprints that are still available of my papers and will keep you on my mailing list in the future.

The reference I promised to send you on the chromosomes of Paramecium is to an article by Wenrich that appeared in 1940 in the *Collective Net*, 15:1-6. There is also a list of chromosome numbers given in Kudo's *Protozoology*, 1946, page 149. I hope this will be of some help to you.

With best wishes for continued success in your work,

Cordially yours,

T. M. Sonneborn
