IN REPLY REFER TO:

August 3, 1961

Dear Joshua & Esther:

It seems I have recuperated fairly well from a bout with a slipped disc according to my latest examination yesterday. Although officially I still have not been notified of support for my stay at Stanford, I expect that this will be forthcoming shortly.

I should like to confirm my arrival on or about Oct. 1 (barring any <sup>unforeseen</sup> mishaps in the considerations above). I wonder if you could give me any general information about the availability of living accommodations along the lines of a one-bedroom unfurnished apartment in the general vicinity. I would appreciate any suggestions you might have as to whether it would be possible to locate something suitable after arrival.

Best regards.

Yours, Roy
