Prof. J. Lederberg
Department of Genetics
University of Wisconsin
Madison, Wisconsin .
U. S. A.

Dear Prof. Lederberg,

Please excuse me for bothering you with a request on behalf of the Tel-Aviv University. In the Faculty of Science we are faced with the following problem:

The Department of Microbiology is now training especially medical bacteriologists but we tend to develop this Department on more general lines. A Department of Genetics is now in the first stage of establishment. In accordance with this tendency and development we have applied for a Fulbright scientist in the field of Bacterial Genetics .

Could you please recommend a scientist who would be interested to come to Tel-Aviv to train research assistants in Bacterial Genetics. The teaching language would be English. A scientist with some knowledge of Hebrew would surely have advantages .

Sincerely yours

A. Klopstock

Prof. A. Klopstock
