Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison, Wisconsin

Dear Josh:

The letter of Scarano that you forwarded is sad and ironic. Both Paul Berg and I know his case very well and ~~I am~~ we cannot become at all enthusiastic about his joining us for fellowship work. I am therefore returning the correspondence for your file.

I really hope you are planning to come to visit us soon; there are many matters which have to do with the graduate and medical school curriculum, equipment, and university and medical school appointments that we could profitably discuss. One suggestion I have is that you come here when Henry Kaplan is planning to visit, some time at the end of this month; I don't know the specific dates, but can let you know as soon as I find out.

As ever,

Arthur

Arthur Kornberg.

AK/McK

Encl.

That sounds like a good idea. Do let me know & I will plan to try to make it. Sorry to have been uncommunicative just trying to swim out from under
Yours
Joshua
