Medical Center  
Palo Alto, California

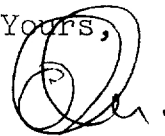

Dear Joshua:

Thank you for sending the Citation Index report. It is sort of amusing to have this many references to a paper which was only published more or less by accident. I am sorry if it is true that you won't be at the Panel meeting on the 16th.

I just received your rewrite for the general report, and I think it is excellent. It certainly should be included.

With best regards,

Yours,

Oliver H. Lowry
