Dear Toshua: Will you be  
on your base March 15-21. If  
so I would like to pay  
you my respects. I can do so  
in 1/2 hr. # Our son Tom is in  
Korubergs Dept. # We have another  
son at Berkeley # I noticed  
while in N.Y. City last week  
an item in the N.Y.T. that  
the stuff hurled at the moon  
was only "partially sterile"  
Who caused that combination?  
It's either sterile or not sterile.  
I know that from one cause  
in Ag Baily taken in '20  
long before you put sex on  
the map microbise.  
It would appear to me that  
your "LUNAR GUYS" are or have  
to make too many com-
