

THE ROCKEFELLER INSTITUTE
FOR MEDICAL RESEARCH

66TH STREET AND YORK AVENUE
NEW YORK 21, N. Y.

5/3/46

Dear Joshua

Dr. Hermann must have misunderstood
somehow what I said. I have done almost no
work with metabolic inhibitors, but I told him
it was my intention to study their effect on the
process of mitosis and especially chromosome movement.
All I can tell you is that chloralhydrate destroys the
spindle, and so does KCN.

I am sending off some reprints by
separate mail.

Best regards,
Hans Ris
