

UNIVERSITY OF CALIFORNIA

DEPARTMENT OF VIROLOGY
BERKELEY 4, CALIFORNIA

October 27, 1961

Dear Edgar, Kaiser, Lederberg, Novick, Sinsheimer and Yanofsky:

I am thinking of organizing another West Coast Phage Meeting next March, similar to the one we held here in the spring of 1959. However, now it is possible for us to reserve the new University of California Alumni Center in the Sierra near Lake Tahoe for this purpose, where accommodations are available for \$10.00 per day per person, including room and board. We could hold sessions in the afternoons and evenings, so that the mornings are available for skiing or other recreations. The meeting would not cost very much money, therefore; Tahoe is within a (long) day's drive from Pasadena, San Francisco and Eugene, and hence most participants could come there by car.

Could you let me know within a week or so whether there is any interest in your group in holding this meeting. If there is interest, could you indicate to me the names of persons from your group that would like to come (bearing in mind that the meeting would get out of hand if there are much more than 50 people) and whether March 28, 29, 30, 1962 are good dates.

I would appreciate it if you didn't broadcast these plans too widely, since the purpose of the meeting would be destroyed if too many kibitzers turn up.

With best regards

your

G. Stent
