Palo Alto, California

Dear Josh:

Many thanks for the batch of reprints which just arrived. In contrast to others, I do not put your ~~reprints~~ <sup>reprints</sup> aside for future reading but always manage to get at them right away. I had the usual rewarding experience this time of finding your papers extremely stimulating and I would like to thank you very much for sending your reprints to me and for keeping me on your mailing list.

A few days ago, Ruth Gross paid us a flying visit from Pavia. As you perhaps know, we are considering her for one of the two co-directorships of our Heredity Clinic and I do hope she will accept the offer. We just got the grant to set up this clinic, and it represents a very important point in the development of genetics at this school in the direction of the creation of a full Department of Genetics.

WAELSCH, S. G.

With many thanks and kind regards,

Sincerely,

Salome G. Waelsch
