Dear Josh & Esther -

Sincere congratulations for your latest honor - election to the National Academy. Although not surprised, few could have been more elated when I heard the result today. We are proud of you - both because you are a colleague on our faculty and a member of the Society of American Bacteriologists.

We welcome you to the Botany division which I assume will be your choice. I have sent an Air Mail to Kenny as he was deeply interested too

Kindest regards.

Perry
