*Chris -
I regret it looks
as if I just
won't be able to
make it this
Nov. Maybe
better news
later
Regards,
Josh.*

Dear Friend,

Re : Meeting of the Scientific and Academic Advisory Committee
of the Board of Governors

As you were already notified we intend to continue the procedure adopted last year - which everyone concerned thought was very useful - and have a meeting of the Scientific and Academic Advisory Committee precede the meeting of the Board of Governors.

We have earmarked Monday and Tuesday, November 12 and 13, 1973 for this purpose but will, of course, be very glad if as many of you as possible could arrive here even earlier.

The way I envisage the two-day session is as follows : the first day and a half will be devoted to visits to the various departments and laboratories - each of us in his field. The last half day should be set aside for an executive session at which we would summarize our findings and recommendations and prepare statements to be made at the meeting of the Board of Governors.

I hope this scheme meets with your approval, but I am certainly open to suggestions and hope to be hearing your reaction very soon.

With best personal regards,

Sincerely yours,

Christian B. Anfinsen
Chairman, Scientific & Academic Advisory Committee
