Remarks
By
C. Everett Koop, MD, ScD
Surgeon General
Of the
U.S. Public Health Service
U.S. Department of Health and Human Services

Presented to the National Young Leaders Conference
Washington, DC
July 14, 1988

The purpose of this lecture was to tell a group of rising movers and shakers what the Public Health Service was all bout at present, how it came into being, what the Surgeon General does, and what some of the specific current activities are and what they cost the American people.

This is an excellent summary of all of the above and for the future. It is also updated as of the middle of the year 1988.
