Asthma is transmitted from one generation to another. Treat it now.

Our reasons for wanting these questions answered.

Because we treat your case individually.

Because we prescribe for your individual symptoms.

Because we want to prescribe for you intelligently.

Because your case is treated in accordance with the answers to the questions asked on the reverse side of this blank.

Professional services

Each new case is placed in the hands of one of our physicians, and has THE SAME PERSONAL ATTENTION THAT WOULD BE GIVEN IF THE PATIENT SHOULD CALL AT OUR OFFICE.

By our system of reports we are able to keep in close touch with each case, know at all times the progress being made, and direct the patient fully. It is this close personal attention to each case that has made for us a reputation that any one might be proud of.

Why you should return this history.

Our treatment is not a patent medicine, or cure all, claimed to eradicate and cure every form of disease known to the medical profession.

Our treatment is based upon this history of your past and present conditions, and present suffering, and is treated scientifically.

Our treatment is not sold at so much per bottle, but is based upon a thorough and scientific personal diagnosis of your individual case.

It is surprising but nevertheless a fact that some people troubled with diseases of the eyes, nose, throat and ears, or Asthma, will go to the drug store and purchase some so-called cure, such as a smoke, wash, inhaler, etc., at from 25 cents to a dollar and expect to get a permanent cure of their afflications.

We are sure that if you had any of the above troubles you would prefer to go to a specialist in the treatment of the above disease and secure the benefits of consultation and the continuous and skillful treatment of your case.

WE ARE ASTHMA AND HAY FEVER SPECIALISTS, and treat these maladies scientifically.
