A Brain and Nerve-sedative and Antidote
for all Headaches and Nervousness.

Beef Peptonoids

IN POWDERED OR LIQUID form—concentrated
beef, milk and gluten digested.
Invaluable in all cases of Disordered Nutri-
tion.

HEDS

There is a hole lot of Kinds
of heds. red-heds, wooden-heds, flat
heds, soft-heds, big-heds, fool-in-the-
heds, cabbidge-heds, levil-heds, bustlid-heds, lite-
heds, bull-heds, bawled-heds, and so

4th. Pa he's got one. Its bawled.

And so has Ma. Ma she's long-heded
and Pa he's bull-heded but I'm red-

heded and levil too. But our cat
has got wiskers on her hed
which is on the other end whare

her tail aint but whare her mouth is.

W. B. Jackson

W. B. Jackson

And a rivers mouth is not where its hed is, But a Bull-dogs is you bet and a snaix hed is flat on the ground with eyes on the corners & fangz.

A army is got a hed too but a idiot aint got none. The smart end of a boy is his hed except when he gits spanked but the smart end of a bee is not thare, o No, It is at the South end of his body frum his hed. But Pa he had

a carbungle on his neck and he called it a grate fambly gathering when it come to a hed, but

you cant tell if Ma or Pa is the hed
of our fambly for both claims it.

And a mud turkle can swal-
ler his hed but a tode cant

but a frogs legs is better then

his hed for eating. Jackasses

heds is to hold thare eers on but

horses heds is to steer them with and eat

oats but if a cows hed
wouldnt work she couldnt

eat grass and give
milk and the milk-

man would make the pumps suffer

you bet. But cats heds is rat

traps. A giraft is stuck up and

hi-heded with a soar
throat and a angle
worm has got a tale
at both ends and no hed

but he ketches suckers all the same.

Peepel dont nead cows anyhow
only for milk for a goats hed and

a coons hed is both strong butter. Heds

is to kepe brains in but boys

heds is to git coamed all the time

when they dont nead it. It

dont make no differants what

shaip a mans hed is his face

likes his hed. Faices and

heds is vary mutch atatched to each uther
in fackt they are stuck on each uther. Most
heds has ears and hairs stuck on them,
too, only bawled heds dont. A bawled hed
is like a goos egg without no wiskers.

But thare is a lot more kind of heds
-hed-long, hed-first,

hed or tale, hed over
heels, hedquarters,
hed-cheese, and

hed-ake, Hed or tale is whare you flip a cent and git stuck. it is called gambilling. Hed-first is where you tumble to sumthing and dont land onto your feet. Hed-quarters sounds like

money but it is only a place to hang out. Hed-cheese

is the kind

what

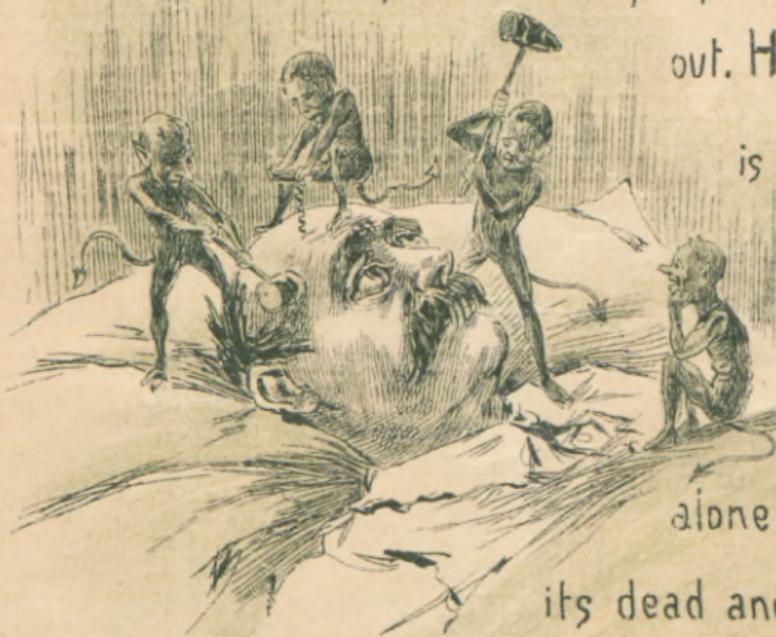

cant

walk

alone because

its dead and has got

a bad breth. But hed-ake is when littul devils is inside your hed pushing your eyes out from behint, hammering on your tempils and

trying to raise your roof. They
say if a person didn't have
no stummick nor nerves
he wouldn't have no hed-ake

but if he didn't have no hed, he
couldn't have none eether, only

like **M**a's, which is from worrying and nervis
strains. **P**a he says if a feller has got a hed,
he will git ahead in this world. but I dont want
no hed like he gits on him when he goes out

with the boys. **M**a she says
2 heds is better'n I but
Pop dont think so next
morning after he's been to

the club. Them heds ust to almost
 kill him. But now they dont. He's
 gitting cute in his old aige. He
 takes Fosfo Kaffein and it nox
 the sox off of his hed-ake. It's grate
 stuff. It kin cure any kind of hed but ded-hed.
 Heres the labil off of Pa's bottel. You just try it.

PHOSPHO-CAFFEIN COMP.

(GRANULAR EFFERVESCENT)

FORMULA - for each dessertspoonful:

Caffein,
 Acidi Phosphorici $\bar{a}\bar{a}$.grain ss.
 Antipyrin.

 Sodium Bromide. grains. v.

PRICE ONE DOLLAR

THE
 Arlington Chemical Co.,
 YONKERS, N.Y.

THE SATISFACTORY RESULTS PRODUCED BY
 PHOSPHO-CAFFEIN COMP. IN HEADACHES, NEURAL-
 GIA, INSOMNIA, NEURASTHENIA, AND GENERAL NERVOUS
 RITABILITY, ARE NOT DUE TO ANY ONE INGREDIENT. THE
 COMPARATIVE TESTS HAVE DEMONSTRATED THE SUPERIORITY
 OF THE ABOVE FORMULA OVER ANY OTHER IN THE MARKET
 THE USUALLY UNPLEASANT AFTER-EFFECTS OF THE PROP-
 ERITIES OF THE OTHER INGREDIENTS, LEAVING THE
 UREANOUS SYSTEM IN A NORMAL

DOSE.
 FOR AN ADULT, ONE TO TWO HEAPING OF
 TEASPOONFULS IN A HALF TUMBLER OF
 WATER. CHILDREN IN PROPORTION. REPEAT
 THE DOSE ONCE AT EXPIRATION OF FIFTEEN
 MINUTES, AND AGAIN IN HALF HOUR IF RE-
 QUIRED. DRINK WHEN EFFERVESCENCE
 NEARLY CEASES.

Phospho-Caffein Compound,

A BRAIN AND NERVE SEDATIVE.

The satisfactory results produced by Phospho-Caffein Comp. in HEADACHES, NEURALGIA, SLEEPLESSNESS and GENERAL NERVOUS IRRITABILITY, are not due to any one ingredient, but to the happy effect of the combination.

The usually unpleasant after effects of the sedatives are fully overcome by the reconstructive properties of the other ingredients, leaving the brain and nervous system in a normal condition.

Dissolved in cold water, PHOSPHO-CAFFEIN Comp. forms an effervescing, refreshing drink.

AN EFFECTIVE CURE FOR HEADACHE.

A NERVOUS TONIC FOR FATIGUE.

A RELIEF FOR NERVOUS "WEAR AND TEAR."

Dose :—One to two heaping teaspoonfuls in a half tumbler of water. Repeat the dose once at the expiration of fifteen minutes, and again in half an hour if required. Drink while effervescing.

Put up in
25 ct., 50 ct. and
\$1.00 bottles.
