Birthday Descriptions. The foregoing very brief Birthday Descriptions have been taken from the *Signs of the Times*, an astrological magazine published monthly in Boston, Mass. It is understood, of course, that descriptions so general in character will rarely answer exactly; planetary conditions in each case have also to be considered. They are sufficiently close however to enable anyone to recognize some of the general characteristics peculiar to his birthday. Fuller information on this subject may be had from perusal of the magazine itself or from written application to the publishers, GRANT & Co., P. O. Box, 3243, Boston, Mass. Sample copies, 10 cents.

AQUARIUS.

BIRTHDAYS. January 20th to February 18th. This sign contributes noble and humane qualities to mankind, inclining to a useful or domestic calling rather than one of a destructive character; the disposition is good, though somewhat vain and ostentatious, loving public parade, approbation and entertainment; the mind is intelligent, curious, inventive, original, sometimes to eccentricity or "crankiness," and desirous of honor and leadership. AQUARIUS rules the legs and ankles, and its diseases are gout, cramp, hysteria, rheumatism, ulcers and other evidences of corrupt blood; also reflectively, heart, throat, urinary and generative troubles. Take Rogers' Royal Nervine and Rogers' Royal Herbs.

Never Put off till To-morrow What Ought to be Done To-day.

Delays are dangerous. What is simply a nervous irritability to-day may be mental aberration to-morrow. To-day's headache may mean brain fever to-night. This morning's sciatica may end in paralysis this evening. Last night's sleepless, restless, tossing night may result in rupture of a blood-vessel or apoplexy to-morrow. If you need a brain and nerve tonic get **Rogers' Royal Nervine** *now*, this very hour.

If you are stingy and a dollar looks as big as a cart-wheel now, it will look as small as a mustard seed when you can't use it. Don't delay. **Rogers' Royal Nervine** is worth \$1000 a bottle. Get it. Get it right off. Swap your dollar for a solid chunk of health. You won't get cheated either. There is a little fairy in every bottle. Sold by Druggists.

HARRY BROOKS, America's Greatest Walker and Athlete.

ROGERS' ROYAL REMEDIES CO.,

GENTLEMEN,—After a thorough trial of your Royal Nervine, I am pleased to state for your information that it is all, and in fact more, than you profess it to be. I shall with pleasure not only try and induce my own personal friends who are afflicted with nervousness to take your remedy, but shall certainly proclaim it to all whom I may meet in my travels as a great and well-named Royal Remedy. With best wishes for your success, I remain, Yours truly, HARRY BROOKS.

PISCES.

BIRTHDAYS. February 19th to March 20th. If born in these days the sun inclines to medium stature, gives a reasonably corpulent body, strong propensities and a fondness for the good things of life; contributing lack of self-confidence, and love of ease rather than exertion, requiring to be spurred on rather than restrained in the great ventures of life; though such persons travel or move about considerably in life, especially upon the water. Without other qualifying conditions, such persons become very extravagant if not prodigal in self-gratifications. The diseases and accidents peculiar to the sign are those affecting the feet and toes, as gout, ulcers, dropsy, chilblains and corns, also reflectively, bowel and lung troubles. Take Rogers' Royal Herbs and Rogers' Royal Cough Elixir.

ARIES.

BIRTHDAYS. March 20th to April 19th. If born between these dates the sun gives unusual force of character, a spirited disposition and a strong desire for leadership in the world; delight in debate, daring acts and personal contests, but with tendencies to excesses in actions and sports; though naturally magnanimous and forgiving, injustice quickly rouses to violence. **ARIES** ruling the head, gives diseases there, such as brain troubles, fevers, ringworms, shingles, epilepsy, apoplexy, convulsions, catarrhs, toothache, headache and reflectively, stomach and kidney troubles. Take Rogers' Royal Herbs, Dry or Liquid, and Rogers' Royal Nervine.

Astrology and a belief in signs was pretty generally practiced up to the 17th century, and now seems to be finding favor again with a great many intelligent people, *We quote* from accepted authorities, for the benefit of believers, some of the influences which are said to govern persons born during the period of the sun's pas-

sage through each of the Twelve Signs of the Zodiac. The position of the moon and planets is said to vary and change these Zodiacal influences, dependent upon their position.

TAURUS.

BIRTHDAYS. April 20th to May 20th. If the birthday falls here, then there is an extra share of pride, ambition, perseverance and determination amounting at times to headlong perverseness or bull-like obstinacy; such persons are tenacious of purpose and slow to anger but when once enraged, difficult to appease; strong in appetites and passions; naturally fond and affectionate, but when provoked, jealous and destructive. **TAURUS** rules the throat, and its diseases are tonsillitis, scrofula, croup, quinsy, diphtheria, bronchocele, wens, boils and ulcers; also reflectively, spinal, heart and urinary or generative troubles. Take Rogers' Royal Cough Elixir and Rogers' Royal Nervine.

II

GEMINI.

BIRTHDAYS. May 21st to June 20th. Coming into the world on either of these days, the sun gives a good disposition, affability and courteousness; strong inclinations towards the literary and scientific callings and the polite accomplishments in life. There is double-mindedness and capability of conducting two trains of thought at the same time; sometimes giving reputation for fickleness; events of life come in pairs; the temperament is active, restless and excitable. GEMINI gives laryngitis, bronchitis and diseases involving the respiratory organs and the brain and nerve forces; also reflectively, bilious complaints. Take Rogers' Royal Nerveine and Rogers' Royal Cough Elixir.

"HOWDY, SHAKE!"

When your friend pokes his paw at you and says, "Howdy, shake!" give him the grip and say, "I'm well, thanky, I've just finished a bottle of it." If he says, "What?" say, "why, a bottle of Rogers' Royal Nerveine you goose," and he'll understand you.

"Everybody is using it," says a druggist in Washington, "from President Harrison down to the runners in the Navy Yard. Bet you a tenner the President mentions it in his next Message, and tells the people it costs only one dollar a bottle."

Persons born between these dates are generally noble, honest, affable and courteous; faithful in friendship; punctual in fulfillment of promises; of few words and those to the purpose; ambitious of honor, resolute and courageous and a lover of sumptuousness and magnificence. SOUND SLEEP

Sound, sweet, refreshing sleep, aside from being very pleasant and enjoyable, is most important in its bearing on health and strength. Dyspepsia on the one hand and sleeplessness on the other, cause more real and actual disease than most persons suppose.

But he who tries to get sleep by using opium, morphine, chloral or preparations containing them, is worse than a fool. They produce sleep, but they ruin their victim body and soul.

Let Nature prescribe for you. Rogers' Royal Nervine, will relieve your sleeplessness and dyspepsia by striking at their very root and will avert the terrible train of disasters that follow close upon their heels.

Rogers' Royal Nervine, the greatest Elixir of Life, keeps the brain fed, strengthened and active, the appetite good, the relish for food keen, the liver free from clogging and the heart acting strongly and healthily.

VIRGO.

BIRTHDAYS. August 23d to September 22d. Persons having either of these birthdays have unusual mental and nerve force; have speculative and inquisitive intellects and are very ingenious, studious and industrious; fond of learning and science, and generally adopting the literary, clerical and intellectual professions or callings in life; they enjoy all the decent recreations, particularly those which gratify the ear and palate. VIRGO rules the liver and bowels and its diseases are colic, worms and obstructions of those parts, dysentery, biliousness, typhoids and disorders of the intestines. Take Rogers' Herbs or Rogers' Royal Liver Pills.

LIBRA.

BIRTHDAYS. September 23d to October 22d. This sign contributes the graceful, courteous and elegant characteristics of mind and body; giving superior taste, even temper and good principles; love for music and the fine arts and inducing choice of business connected with the elegant and decorative in life. Persons so born prove unfortunate as soldiers and in controversial affairs.

LIBRA governs the loins and kidneys and its diseases are affections of the kidneys, renal passages and the ovaries; also reflectively, head and stomach troubles. Take Rogers' Royal Nervine and Rogers' Royal Liver Pills.

HYSTERIA.

Hysteria or extreme nervous excitability ending usually in a spasm of violent crying or laughing, or both, and followed by extreme nervous prostration, is becoming daily more common.

It is due to a too delicate nervous organization, played upon and excited by artificial modes of life, rich foods, lack of exercise, womb troubles, irregularity of the periods and the like. Such people ought to build up and fortify their brains and nerves with a pleasant and reliable nerve food and tonic, such as **Rogers' Royal Nervine**, which will restore proper tone to the system, relieve irregularities, calm excitement, give quiet, restful sleep, and keep the bowels, liver and genito-urinary organs free from congestion. **Rogers' Royal Nervine**, is truly a boon to afflicted women and has saved many an excitable and overwrought person from the madhouse. Do not delay, buy a bottle at once. Price \$1.00.
