

Dear Dr.:—

By a vote of the Middlesex South District Medical Society, a Committee was appointed, with instructions to ascertain in an informal way, for presentation to the Councillors at their annual meeting, the opinion of the members of the State Society, upon the points embraced in the following questions:

A. Are you in favor of admitting women, thoroughly educated in Medicine and Surgery, who have passed a satisfactory examination before the Board of Censors, to full Fellowship in the Massachusetts Medical Society?

B. Are you in favor of admitting women to examination by the Board of Censors, such examination being conducted in accordance with By-laws I and II, with the understanding that, if it prove satisfactory, a certificate shall be given to that effect, signed by the Board of Censors, which certificate shall make them eligible to consultation, and shall give them such other rights and privileges, as the Society may, from time to time, decide to grant them?

Will you have the kindness to write "yes" or "no" against the letters on the back of the enclosed postal card, corresponding to the letters before the questions, and mail the card at your earliest convenience.

B. F. D. ADAMS,
HORACE CHAPIN,
JOHN L. HILDRETH, } Committee.
