LONDON-HOSPITAL  
ANNIVERSARY,  
M,DCC,XCVI.

---

**T**HIS Hospital enjoys singular Advantages, in Regard to the important Ends of the Establishment, from its Neighbourhood to the Shipping below Bridge, and a large Body of People, such as Seamen, Watermen, Coal-heavers, Shipwrights, Rope-makers, Sail-makers, beside the numerous Manufacturers, in Spital-fields, and the eastern Part of the Metropolis; to all of whom this Hospital is of singular Service.—The Wards, by their Magnitude and Airiness, are adapted, in the most striking Manner, to the Relief of the distressed.

The Support, hitherto afforded by generous Benefactors, has enabled the Governors to receive nearly Half a Million of Patients since the Year 1740, labouring under the various Sufferings incident to human Life, of whom only a small Proportion has died, as appears by the General Accounts annually published.—Thus POLICY and HUMANITY implore every possible Assistance to an Object, so distinguished in the great System of Police and Commercial Interest of our Country.

All ACCIDENTS are received by this Hospital without Recommendation or Security; and no Security is required for such Patients as are recommended. The Riches and increasing Commerce of the Nation, it is hoped, are such, as will cherish and support, in full Splendour, an Institution so pregnant with Beneficence, and productive of the most substantial Good, particularly in the Preservation of MANUFACTURERS and SEAMEN.

Thus may the Charity of the Individual be abundantly repaid in the National Credit and Felicity.

Nor ought it to be forgotten, that there has been lately erected, contiguous to the Hospital, at the Cost of Individuals, a Theatre for Lectures, in the various Branches of Medicine; so that every Part of Medical Science is encouraged and promoted for the common Good.

It is the great Aim of the Committee, that the Disbursements keep as equal Pace as possible with the Liberality of the Public. This prudential Conduct is conceived to be the best Security for the Permanency and Prosperity of the Charity. They have, accordingly, the Satisfaction of having considerably reduced the Expences of the Hospital; and trust, that, by pursuing the same economical Plan, with the Assistance that is reasonably expected from the Humane and Opulent, an Extension of the present System may shortly be effected.

The present Anniversary affords a noble Occasion of calling upon the Generosity of Fellow-subjects; and the Facts set forth testify how far this Object is deserving the Munificence of the Affluent, and the Continuance of the Exertions of its present Friends and Supporters.

OF THE

## Corporation of the London-Hospital,

For the Relief of DISEASED and HURT PERSONS,

PARTICULARLY

Manufacturers, Seamen in Merchants Service,  
their Wives and Children,

From its Institution, on the 3d Day of November, 1740,  
To the 1st Day of January, 1796.

*Supported by charitable and voluntary Contributions.*

---

**T**HIS CHARITY was, for some Years, carried on in *Prescot-street, Goodman's Fields*, in several Houses, hired upon Lease for that Purpose; till by the Decay of the Builings, notwithstanding large Sums of Money had been expended to keep them in Repair, and the smallness of the Rooms, The GOVERNORS were determined to open a SUBSCRIPTION, which might enable them to purchase a Piece of Ground, and build a House more proper for enlarging and perpetuating their benevolent Designs; and which has been since happily effected.

Origin of the  
Charity.

The present HOSPITAL, in pursuance of this Scheme, was erected by the voluntary CONTRIBUTIONS of several Governors, *given for that Purpose only*, in an airy Situation near the *Mount in Mile-End-Road*, properly furnished, and fitted up with about 130 Beds, for the Reception of Patients.

Situation of  
the Hospital.

General  
Frame and  
Regulation  
of the  
Society.

The SOCIETY, for carrying on this most useful Undertaking, is by the Charter, bearing Date the 9th of *December*, 1758, confirmed and declared to be a *Body Corporate*, by the Name of the GOVERNORS OF THE LONDON-HOSPITAL; and to consist of such Noblemen and Gentlemen as are therein enumerated, and of those who were reputed Governors for Life at that Time; together with such others who, by giving a Benefaction of *Thirty Guineas*, or more, at one Time, become Governors for Life; and of those who, by subscribing *Five Guineas*, or more, per Annum, are Governors during such Subscription. Out of these are annually to be elected a PRESIDENT, two, or more VICE-PRESIDENTS, and a TREASURER.

Benefits of  
the Charity.

This is the Plan of the Proceedings of the Hospital; and such has been the extraordinary Encouragement given to it, that since the Period of its Establishment, on the 3d of *November, 1740*, it has afforded Relief to upwards of 469,342 distressed Objects; who, from labouring under the Oppression of the most malignant Diseases and unhappy Accidents, have been reinstated in their honest and industrious Capacities of working; and, so far as Observation has extended, *their Morals also have been much amended*; whereby the Public have again enjoyed the Advantage of their Labour, and they and their poor Families been preserved from perishing, and prevented from becoming a Burthen, instead of being a Benefit, to the Community.

Patients  
from the  
Country.

The Governors are requested not to send any Patient unable to walk, till they are first assured of Room in the House; and when they recommend an In-Patient, whose Settlement is in the Country, it is expected, that they satisfy the *House-Committee* concerning the Removal of such Patient, when cured, or judged incurable.

No Person of known Ability to pay for Advice are allowed to partake of this Charity: Nor are any admitted into the House with infectious Distempers; or, who are Asthmatic or Consumptive, or deemed incurable or improper by the Physicians or Surgeons: But such may be relieved as Out-Patients.

Attendance,

The *Patients*, admitted without any Expence, are required to be constant in their Attendance on their respective Physicians and Surgeons, and observant of

their Directions, and all the Rules of the Hospital; and, after their Cure or Relief, to return Thanks at the *Chapel* and at the next *Weekly Committee*. Those, who attend regularly, are obedient to the Rules, and return Thanks, receive a Certificate of their good Conduct, *which will recommend them to future Relief*.

Patients, who do not conform to the Rules of the House, or are guilty of Misbehaviour, are discharged, and never more relieved by the Charity. Refractory Patients.

Such Persons as are inclined to promote this Work of Charity, are desired to send their Subscriptions or Benefactions to *Messrs. Item. *I give and bequeath unto the Treasurer of the London-Hospital for the Time being the Sum of* Form of bequeathing Legacy.  
*to be applied toward carrying on the charitable Designs of the said Corporation.*

Upwards of FOUR HUNDRED of the above were dreadful CASUALTIES, as *Fractions, Dislocations, Wounds, Scalds, &c.* and *extraordinary Cases*, received into the House without Recommendation.

In Point of Air, Situation, and Structure, there has not hitherto, it is apprehended, been erected in the Kingdom, any Asylum, for the Relief of the distressed and sick Poor, more calculated to answer that important End than the LONDON-HOSPITAL, the WARDS of which are large, and their Ceilings lofty. The Elevation of the Ground, on which it stands, appears to be no less than 30 Feet above the Level of the River at high Water.

Its Proximity to the River, together with its Situation on one of the most public Roads, renders it liable to the Application of more Accident-Patients than any neighbouring Hospital.—Of Patients in the House at one Time, the Average Number is generally about 130. But if the Finances would permit all the Wards to be opened, they would contain 400 and upwards, a Number not greater than Petitions for Admission require.

London Hospital Annual Reports

London, 1796

National Library of Medicine

Bethesda, Maryland

**CONDITION PRIOR TO TREATMENT**

The original pamphlet cover was soiled. The sewing was intact. The text was flexible, and slightly soiled. The edges were trimmed into the text. There leaves were stained. The pH of the paper was 5.6.

**TREATMENT**

The text block was disbound. The edges of the text block and heavily soiled leaves were surface cleaned with grated and solid vinyl erasers. The text was washed in a bath of deionized water and deacidified in an aqueous solution of magnesium bicarbonate. The leaves were repaired with Japanese paper and wheat starch paste. The book was re sewn by hand with unbleached Irish linen thread with the addition of new end leaves of handmade paper. The spine was lined with both Japanese and Western paper using wheat starch paste adhesive, and a layer of unbleached Irish linen with PVA adhesive. The book was recovered in a non-adhesive paper cover that is reinforced with acid-free buffered board. The surface pH after treatment was 8.7.
