

5759. Rubber prophylactics. (F.D.C. No. 42131. S. Nos. 26-770 P, 26-773 P.)
QUANTITY: 26 cartons, each containing 48 3-unit metal boxes, and 14 cases, each containing 12 cartons of 12-unit boxes each, at Minneapolis, Minn.
SHIPPED: 1-16-58, from Akron, Ohio, by Goodwear Rubber Co., Inc.
LABEL IN PART: (Box) "Aristocrat * * * for Prevention of Disease" and "Premier Prophylactics."
RESULTS OF INVESTIGATION: Examination showed that the article contained holes, and was excessively fragile.
LIBELED: 10-6-58, Dist. Minn.
CHARGE: 501(c)—the quality of the article fell below that which it purported to possess; and 502(a)—the label statements "Prevention of Disease" and "Prophylactics" were false and misleading.
DISPOSITION: 11-20-58. Default—destruction.

DRUGS FOR VETERINARY USE

5760. Cor-Rex. (F.D.C. No. 42063. S. No. 24-937 P.)
QUANTITY: 53 jugs at Buffalo, Minn.
SHIPPED: During 1953 or 1954, from Swea City, Iowa, by Mr. Mortonson.
LABEL IN PART: "Master Cor-Rex An Aid In The Control Of Fowl Cholera * * * Active Ingredients 100 cc Contains 23 Grains Mercuric Chloride * * * Directions For Sick Birds * * * Tonic."
RESULTS OF INVESTIGATION: Examination showed that the article contained 14.5 grains of mercuric chloride per 100 cubic centimeters.
LIBELED: 7-23-58, Dist. Minn.
CHARGE: 501(c)—the strength of the article, when shipped, differed from that which it purported or was represented to possess; and 502(a)—the label on the bottle of the article contained false and misleading representations that the article was a tonic, that 100 cubic centimeters of the article contained 23 grains of mercuric chloride, and that the article was an adequate and effective treatment for fowl cholera or any infectious disease of fowl.
DISPOSITION: 10-22-58. Default—destruction.

5761. Blue Seal Chick Starter. (F.D.C. No. 42200. S. No. 7-592 P.)
QUANTITY: 18 100-lb. bags at Nashua, N.H.
SHIPPED: 7-7-58, from Lawrence, Mass., by H. K. Webster Co.
LABEL IN PART: (Tag) "BLUE SEAL CHICK STARTER Medicated For prevention of coccidiosis and stimulation of growth feed continuously as the only ration. Active ingredients: Glycarbylamide (4,5-imidazoladicarboxamide) 0.002%, Arsanalic Acid 0.01% * * * Manufactured by H. K. Webster Company * * * 31512."
RESULTS OF INVESTIGATION: Examination showed that the article contained approximately 0.021 percent sulfaquinoxaline and a trace of arsanilic acid.
LIBELED: 9-22-58, Dist. N.H.
CHARGE: 501(c)—the quality of the article, when shipped, fell below that which it purported and was represented to possess since the article contained sulfaquinoxaline in place of glycarbylamide; 502(a)—the label statements "Glycarbylamide * * * 0.002%" was false and misleading as applied to a product which did not contain glycarbylamide; and 502(e) (2)—the label of the
