

United States Department of Agriculture,

OFFICE OF THE SECRETARY.

NOTICE OF JUDGMENT NO. 446, FOOD AND DRUGS ACT.

ADULTERATION OF CREAM.

On or about March 31, 1910, Carter Kelly, of Leesburg, Va., sold and delivered at the Union Station, Washington, D. C., a quantity of alleged cream. Dr. William C. Woodward, health officer of the District of Columbia, acting by authority of the Secretary of Agriculture, caused a sample from the above delivery to be procured and analyzed. As the findings of the analyst and report made indicated that the cream was adulterated within the meaning of the Food and Drugs Act of June 30, 1906, the said Carter Kelly was afforded an opportunity for hearing. As it appeared after hearing held that the sale was made in violation of the act, the said health officer reported the facts to the United States attorney for the District of Columbia.

In due course a criminal information was filed against the said Carter Kelly in the Police Court of the District of Columbia charging that the cream in question was adulterated, in that a valuable constituent of the article, to wit, butter fat, had been left out and abstracted wholly or in part.

On May 10, 1910, the defendant entered a plea of guilty to this information, and the court imposed a fine of \$10.

This notice is given pursuant to section 4 of the Food and Drugs Act of June 30, 1906.

JAMES WILSON,
Secretary of Agriculture.

WASHINGTON, D. C., *May 23, 1910.*
