CEREAL PRODUCTS**FLOUR**

Nos. 3851 to 3858 report the seizure and disposition of flour that had been shipped in interstate commerce and was in interstate commerce at the time of examination, at which time it was found to be insect-infested. The time of infestation was not determined.

3851. Adulteration of flour. U. S. v. 60 Bags of Flour. Consent decree of condemnation. Product ordered released under bond to be denatured for animal feed. (F. D. C. No. 7936. Sample No. 28607-F.)

On July 17, 1942, the United States attorney for the Southern District of Florida filed a libel against 60 bags each containing 98 pounds of flour at Jacksonville, Fla., alleging that the article had been shipped in interstate commerce on or about January 28, 1942, by International Milling Co. from Greenville, Tex.; and charging that it was adulterated in that it consisted in whole or in part of a filthy substance. The article was labeled in part: "White Prancer Flour Bleached."

On August 10, 1942, C. W. Zaring & Co., Jacksonville, Fla., claimant, having consented to the entry of a decree, judgment of condemnation was entered and the product was ordered released under bond to be denatured under the supervision of the Food and Drug Administration and disposed of as animal feed.
