Want annual reports for 1852-5 (1st-4th); 1857 (6th); 1858 (7th).

**MORTALITY AND REGISTRATION.**

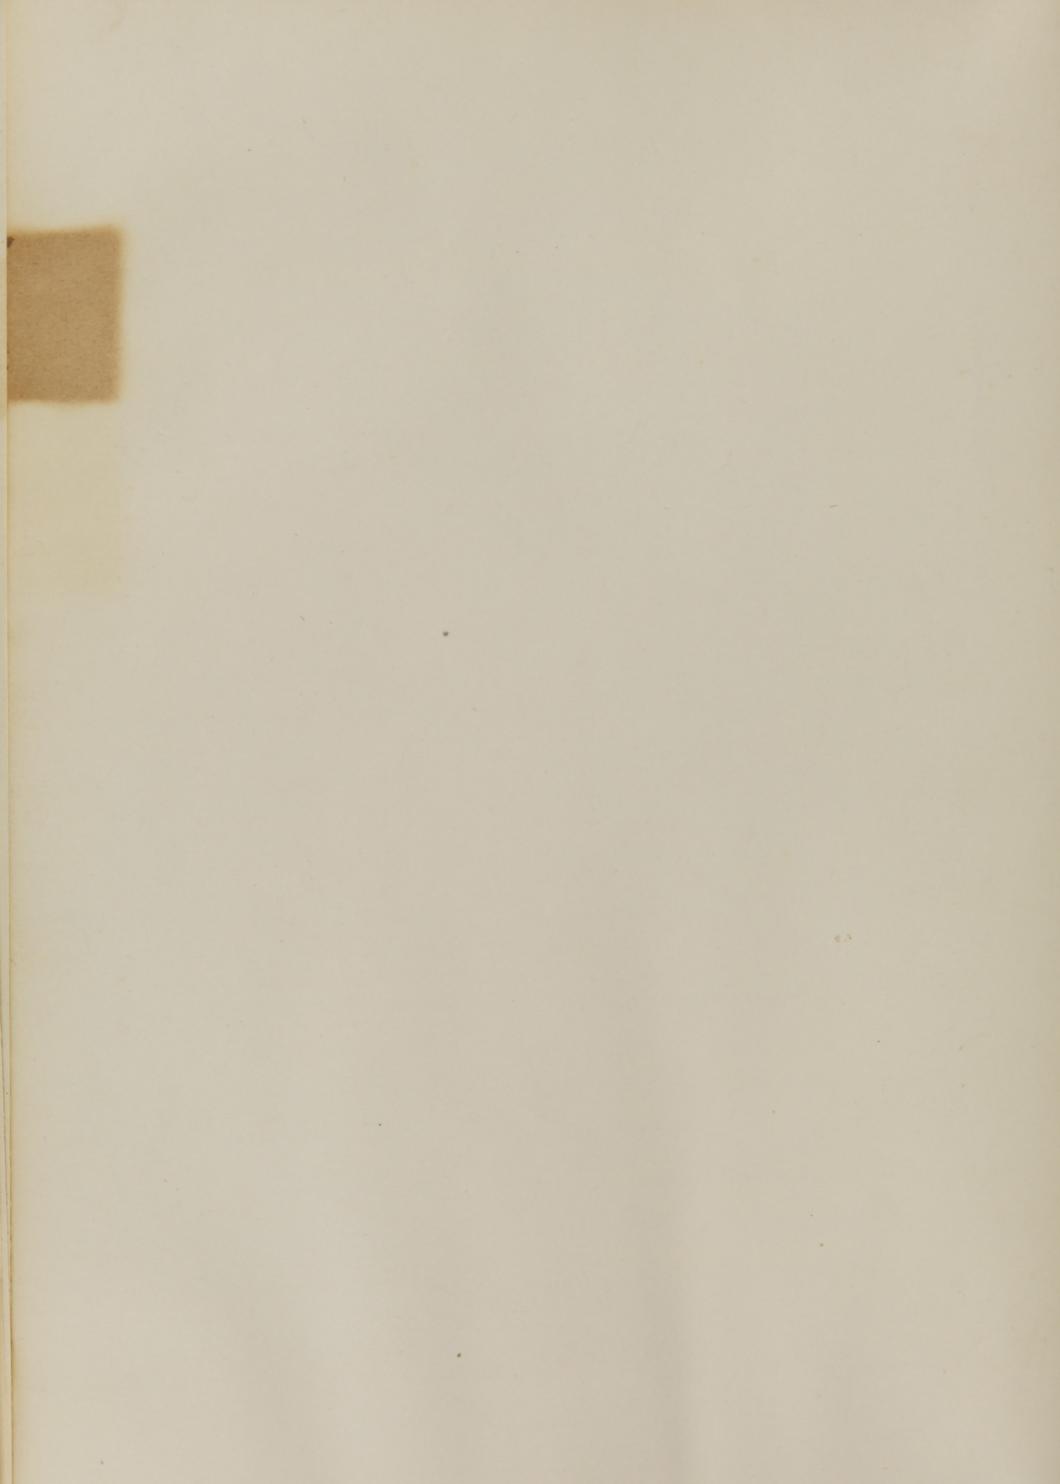

Want all reports or statements on, if any.

# THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. It begins with the first settlers who came to the eastern coast of North America. These settlers were mostly from Europe and they brought with them the culture and customs of their home countries. Over time, these settlers and their descendants became known as the American people. They worked hard to build a new life for themselves in a new land. They discovered that the land was rich in resources and they began to develop it. They built farms, towns, and cities. They learned to work together and to help one another. They discovered that they had a unique way of life and they began to call themselves Americans. They fought for their rights and they won. They became a free and independent nation. They grew and they changed. They became a great and powerful nation. They are the United States of America.

# List of Medical Journals, Transactions, and Reports,

Wanted to complete Files in the Library of the Surgeon General's Office, Washington, D. C.

A fair price will be paid for these missing numbers and volumes, or valuable exchanges can be furnished for them.

Address, stating terms,

Dr. J. S. BILLINGS,

Asst. Surgeon, U. S. Army,

Librarian.
