Fifth of *May* 1761.

With an alphabetical LIST of the CONTRIBUTORS,
and of the LEGACIES which have been bequeathed, for Pro-
motion and Support thereof, from its first RISE to that Time.

If there be among you a poor Man of one of thy Brethren, within any of thy Gates in thy Land, which the Lord thy God giveth thee, thou shalt not harden thy Heart, nor shut thine Hand from thy Poor Brother.

Thou shalt surely give him, and thine Heart shall not be grieved when thou givest unto him: because that for this Thing the Lord thy God shall bless thee in all thy Works, and in all that thou puttest thine Hand unto.

For the Poor shall never cease out of the Land: therefore I command thee, saying, Thou shalt open thine Hand wide unto thy Brother, to thy Poor, and to thy Needy in thy Land. DEUT. xv. 7, 10, 11.

I was a Stranger, and ye took me in, I was sick, and ye visited me :---- In as much as ye have done it unto one of the least of these my Brethren, ye have done it unto me.---- MATT. xxv. 36, 40.

OF THE

Progress of the *Pennsylvania* HOSPITAL continued.

AT an anniversary Meeting of the Contributors, held the Sixth of the *Fifth Month, May, 1754*, the following Members of this Corporation were chosen Managers and Treasurer for the Year ensuing, viz.

M A N A G E R S.

JOSHUA CROSBY,
HUGH ROBERTS,
JOHN SMITH,
ISRAEL PEMBERTON,
BENJAMIN FRANKLIN,
JOSEPH MORRIS,

ISAAC JONES,
SAMUEL RHOADS,
JOHN REYNELL,
EVAN MORGAN,
JOSEPH FOX,
WILLIAM GRANT.

T R E A S U R E R, CHARLES NORRIS.

ON the Tenth of the same Month the said Managers met, and observing that the Term for which the Rules made for the Choice of Physicians and Surgeons was expired, and being willing to give the Contributors a fresh Opportunity of manifesting their Sentiments on this Matter, which in the early Establishment of the Institution had been a Subject of divers Consultations and Debates, they gave public Notice in the Gazette hereof, and concluded, in the mean Time, that the same Rules should be observed and maintained, until any Twenty of the Contributors should desire they might be reconsidered at a General Meeting; but as no Application was made for this Purpose, nor any Dissatisfaction appeared, or Alteration proposed-----they proceeded in the Method which had been experienced to answer the End intended, and accordingly made Choice of Doctors *Thomas Bond, Phineas Bond, Thomas Cadwalader, Samuel P. Moore, John Redman, and William Shippen*, to be the Physicians and Surgeons for the Year ensuing; who, being applied to, consented to engage in the Service, and agreed to class themselves in the same Manner, as heretofore.

THE next Matter which engaged the Attention of the Managers, was the raising further Contributions to increase the Capital Stock, and enable them to extend the

Use of this humane Institution : For which Purpose they published an Account of its Rise and Progress, to this Time ; some Copies whereof they sent to *London*, accompanied by the following Letter to *Thomas Hyam*, and *Sylvanus Bevan*, viz.

Esteemed Friends,

Philadelphia, 7th 8th Month, 1754.

YOUR chearful Concurrence with us, in the Foundation of the Pennsylvania Hospital, so fully assures us of the Pleasure you would take in its Success and Advancement, that we determined to embrace every suitable Occasion of communicating the Accounts of our Progress : And the Public having received some Benefit, and being, we hope, gradually become more sensible of the Advantages of the Institution, it was judged expedient, besides the General State of our Accounts, to publish a Narrative of our Affairs from the Beginning ; which being now compleated, we send you a Dozen of them, not doubting of your Friendship in distributing them in such Manner as may be of most Service ; and that if you find any of your Friends disposed to contribute towards this good Work, you will promote their doing it.

We salute you with Respect, and are

Your real Friends.

WHEN the Nature of this charitable Design became known to the generous *Pennsylvanians*, considerable Sums were soon added to the Stock, particularly by the Citizens of *Philadelphia*, where few of the Wealthy, or those of a middling Rank, failed of contributing according to their Circumstances : Some Benefactions were also obtained from *London*, and some Parts of the *West-Indies*, which encouraged the Managers to attempt the important Task of Building ; a Task the more difficult, as they were not authorised (for good Reasons) to apply any Part of the Capital Stock to that Purpose ; the Sum of Money given by the Assembly not being half sufficient, and the certain Prospect of a War in *America*, while it was like to increase the Occasion, lessened the Expectation of any further Assistance from them. Nevertheless, confiding in the same Divine Providence, which had hitherto blessed their pious Endeavours beyond their most sanguine Hopes, for Assistance to perform that Work, which was now found necessary, not only from the Increase of the Number of Patients, but the Want of Conveniencies, which no private House in the City could furnish them with, they again sought for a suitable Spot of Ground to erect an Hospital on ; and, after various Enquiries and Consultations, had the Satisfaction to purchase, on moderate Terms, the Lot which of all in or near the City was judged most proper for such a Design : It is bounded on three Streets, the South Front 396 Feet, and contains between three and four Acres of Ground. (Our Proprietaries are Owners of near one Acre on the North, which, if obtained, will compleat the Square, and the Prospects of four Fronts open to so many Streets, encompassing the whole Piece of Land, would then be secure.)

THIS Purchase being made near the End of the Year 1754, the Managers directed a Plan of an Hospital to be prepared, that a Part might be erected the ensuing Season ; and one of them (after consulting the several Physicians in regard to the Situation of the Cells, and other Conveniences) drew a Design of the whole Building,

suiting

suiting the Lot of Ground, in such Form, that one third Part might alone be executed with tolerable Symmetry ; and containing, independent of the other Parts, all Accommodations requisite for the present Purpose.

IN this Design is exhibited a House 62 Feet in Front, elevated above the adjoining Buildings, and projecting beyond them a suitable Distance, to cover a Colonnade intended on the South-Front of the Wards, which may be decorated in such Manner as the Contributors hereafter shall think fit.

ALL the Apartments for the Steward, Matron, Apothecary, &c. a large Stair-case leading to the several Wards, and many other Conveniences, may be made in this Division.

ADJOINING hereto, on the East and West Ends, two Wards, each 80 Feet front, 27 Feet deep, and three Stories high.

IN the first Story of each Ward, the Cells for Lunatics, a Gallery the whole Length of 80 Feet, for such of them as may be trusted to walk about, with a Place for Bathing, &c.

IN the second Story, the Mens Ward, with four Fire-places in each, and Ventilators to carry off the foul Air.

THE third Story like the second, but intended for the Womens Ward.

THE Garret may be occasionally applied for the Use of either Sex.

ADJOINING to the East and West Ends of the Wards, two Wings, each 27 Feet wide, and extending in Length, North and South, 110 Feet.

IN the Middle of each Wing, opposite the Wards, a Hall 28 Feet square (including a Stair-case) projecting beyond the other Parts of the Wings, sufficient to cover their Cornice, and raised one Story above them ; with a Ballustrade round the Top, and a Cupola, which may afford a secure Way out, in case of Fire.

THE whole Extent, from East to West, 276 Feet ; the North and South Fronts nearly alike, and, by the Length of the Wings crossing the Wards, the East and West Fronts will make an agreeable Appearance.

BESIDES the additional Rooms for Cells, private Apartments for such Patients as may be improper to be received into the Great Wards, these Wings will afford many Conveniences for the Family, as Cellars, Store-rooms for Provisions, Kitchens, Landry, Lodgings for Servants, &c.

THIS Design being approved by the Managers, and an Estimate made of the Expence of erecting one Wing and one Ward, the Contributors were, according to Law, notified to meet on the Tenth Day of the *Third Month (March)* to consider the Proposal, and finally to determine thereon ; and unanimously approving the immediate building the Parts proposed, the Managers appointed one of their own Number to provide Materials, agree with Workmen, and to superintend the Work ; and a Committee to advise and assist therein, as Occasion might require : These, with one of the most capable of the Contributors, devoting themselves to the Service, united in concerting the most frugal Method of carrying on the Building, and industriously soliciting Contributions from all Persons concerned therein, most of those of whom Materials were purchased contributing a large Proportion of what they furnished ; and many of the Articles, though each singly, might have been supplied by one Person, were divided amongst a Number, to obtain something from each :

So diligent and successful were their Application, that scarce a Tradesman, or even a Labourer, was employed in any Part of the Work, or in providing the Materials, without first engaging a reasonable Part to be charitably applied in the Premises.

By these Means the appropriated Funds were greatly extended, and the Capital saved; though the Trouble to the Superintendants and Assistants was much augmented.

THE Committee appointed to state and adjust the Accounts to this Time, made Report thereof as follows, viz.

On a general State of the Accounts, it appears that

Abstract of Cases admitted into the Pennsylvania Hospital, from the 27th 4th Mo. April, 1754, to the 26th 4th Mo. April, 1755.

THE several foregoing Accounts were published in the Gazette, with the following short Remarks, viz.

“ ONE of the principal Designs of this Institution, being the Care and Cure of Lunatics, and neither the House at present made use of as an Hospital, nor any other that can be hired, having any convenient Apartments for that Purpose, the Managers found themselves under a Necessity of building sooner than otherwise they would have chosen: They have accordingly purchased a suitable Piece of Ground, in an open airy Place, near the City, and are carrying up the Eastern Wing of the Building (which may serve for some Years) confiding that the same humane and charitable Disposition in the People of this Province, which encouraged them to begin the Work, will enable them to go thro’ with it.

“ THOUGH the utmost Frugality is used, it appears by the Accounts that the Balance against the Stock increases annually, which it is hoped will be an Inducement to such as have yet given nothing towards this good Work, to hasten their Contributions, as well as to those Contributors who are in Arrear for Interest, to pay the same more punctually to the Treasurer.”

At an ELECTION on the Fifth of the Fifth Month (May) 1755,

THE same Managers and Treasurer were rechosen; who, at their first Meeting, on the Ninth of the same Month, nominated the same Physicians and Surgeons; all of whom, on being applied to, cheerfully engaged in the Service.

CONSIDERABLE Preparation being made for beginning the New Hospital, on the 28th of this Month the President, attended by all the Managers, the Physicians, and several Contributors, assisted in laying the first Stone of the Foundation, *a large Piece of Marble*, in the South-East Corner of the Eastern Wing, with the following Inscription:-----

In the Year of CHRIST
M D C C L V
G E O R G E the Second happily reigning
(For he sought the Happiness of his People)
PHILADELPHIA Flourishing
(For its Inhabitants were public-spirited)
This Building,
By the Bounty of the Government,
And of many private Persons,
Was piously founded,
For the Relief of the Sick and Miserable;
May the God of Mercies
Bless the Undertaking.

THE Walls of the House being carried up, and the necessary Provision made for raising the Roof, the Managers attended the doing it on the 27th of *Tenth Month (October)* 1755.

At a General annual Meeting of the Contributors for the Choice of Managers and Treasurer, held the Third of Fifth Month, 1756.

BENJAMIN FRANKLIN,
ISRAEL PEMBERTON,
EVAN MORGAN,
SAMUEL RHOADS,
THOMAS CROSBY,
JOHN REYNELL,

DANIEL ROBERDEAU,
CHARLES JONES,
JOSEPH MORRIS,
WILLIAM COLEMAN,
JOSEPH RICHARDSON,
ISAAC GREENLEAFE,

Were elected MANAGERS for the ensuing Year, and
HUGH ROBERTS, TREASURER.

AND at their first Meeting, on the 6th of the same Month, the Managers agreed upon their usual Rules for regulating the Times of their Meetings, &c. and appointed a Committee to receive from the former Treasurer the Mortgages, Bonds, and Books of Accounts, and other Papers, and, after taking from the present Treasurer the Security required by the Laws of the Corporation of Contributors, to deliver them into his Custody. They likewise made Choice of the same Physicians and Surgeons as last Year, who consented to undertake the Service; and *Benjamin Franklin* was appointed President.

ON the third of *Eight Month (August)* the Managers being notified that *William Coleman* declined accepting the Trust of a Manager, on Account of his bodily Indisposition, they chose *Jacob Duche* in his Stead.

WILLIAM DENNY, Esq; having lately arrived from *London*, to succeed *Robert Hunter Morris*, Esq; in the Government of this Province, the Managers and Treasurer waited upon him, on the First of *Ninth Month (September)* with the following Congratulatory Address, viz.

To the Honourable WILLIAM DENNY, Esq; Lieutenant-Governor of the Province of Pennsylvania, &c.

The ADDRESS of the MANAGERS and TREASURER of the *Pennsylvania Hospital*.

May it please the GOVERNOR,

THE Managers of the *Pennsylvania Hospital* beg Leave to testify the Share they take in the general Joy, on his Accession to the Government of this Province.

Through

Through the Favour of the Government, the Contributors to our Hospital were incorporated by Law, and vested with the Powers and Privileges necessary for the well ordering as well as increasing this extensive Charity.

The Institution has ever since flourished, and we have the great Satisfaction to find, that our Care and diligent Endeavours to relieve the Miseries, and heal the Diseases of the Poor, have been blessed with much Success; and that our Power of doing Good, is by the Benefactions of well-disposed Persons daily increasing.

While this right Use continues to be made of the Privileges granted us, we hope our Corporation will be favoured with the Governor's Countenance and Protection; and we request he would accept of our sincerest Wishes for his Health, Happiness and successful Administration.

To which the GOVERNOR returned the following ANSWER.

GENTLEMEN,

"THE Satisfaction you are pleased to express on my Arrival, lays me under particular Obligations; and your good Wishes deserve my hearty Thanks.
 "I AM glad to find so generous and humane an Institution as yours is, managed with so much Prudence, supported by Law, and encouraged by public and private Benefactions.
 "IT will give me a sincere Pleasure, to contribute all the Means in my Power to carry on this Charity, in the most extensive Manner."

THE new House being so far compleated as to be fit for the Reception of the Patients, and the Apartments prepared for their Accommodation, by an additional Number of Beds and other Necessaries, they were removed into it on the Twelfth Month, December; and on the 27th of the same Month the Managers held their first Meeting for inspecting the Business of the Hospital, in the Room set apart for that Purpose.

ON the Decease of Dr. Benjamin Morris, late of this City, his Sister Deborah Morris presented to the Managers, for the Use of the Hospital, a valuable Quantity of Drugs and Medicines, and a human Skeleton, which were gratefully received, and deposited in the Apothecary's Shop.

THE Report of the Committee appointed to state and adjust the Accounts of the Year past, was made to the Managers on the 2d of Fifth Month, May, 1757, agreeable to the following Abstract, viz.

At an Annual Meeting of the Contributors, on the 2d of 5th Mo. May, 1757,

ISRAEL PEMBERTON,	CHARLES JONES,
JOHN REYNELL,	JOSEPH RICHARDSON,
SAMUEL RHOADS,	JACOB DUCHE,
EVAN MORGAN,	WILLIAM MASTERS,
DANIEL ROBERDEAU,	ANTHONY BENEZET,
ISAAC GREENLEAFE,	PLUNKET FLEESON,

Were elected MANAGERS for the ensuing Year, and
 HUGH ROBERTS, TREASURER.

THE same Physicians and Surgeons being agreed upon by the Managers, manifested the same laudable Disposition of continuing their Endeavours for the Benefit of this Institution, by consenting to take upon them the Service another Year.

WILLIAM MASTERS having expressed his Apprehensions, that other public Business in which he is engaged would prevent his Attendance as a Manager, John Sayre was chosen in his Room.

ON the First of the *Fifth Month (May)* 1758, the Managers and Treasurer, elected for the ensuing Year, were,

JOHN REYNELL,
ISRAEL PEMBERTON,
SAMUEL RHOADS,
ISAAC GREENLEAF,
PLUNKET FLEESON,
JOSEPH RICHARDSON,

CHARLES JONES,
EVAN MORGAN,
STEPHEN SHEWALL,
THOMAS GORDON,
SAMUEL MIFFLIN,
JAMES PEMBERTON,

And HUGH ROBERTS, TREASURER.

WHO, at their first Meeting, made Choice of the same Physicians and Surgeons as last Year.

DIVERS Inconveniences being found to proceed from washing the Linen, &c. of the Patients in the common Kitchen, it was concluded expedient to build a Wash-House, a small Distance from the House; a Committee was appointed to make out a Plan for Consideration of the Managers, and to provide Materials for building it, which was accordingly done, and the Work nearly completed this Year.

THE Circumstances of the Institution, and State of the Funds, occasioned a Conference to be held by the Managers, Treasurer and Physicians, in order to consider of Measures proper to be taken, for lessening the Expences, regulating the Diet of the Patients, and to solicit Contributions for advancing the Capital Stock, and to defray the Charges accruing on the necessary Conveniences lately made for accommodating the Patients. In Consequence of which some additional Benefactions were obtained, a Bill of Diet agreed upon, and the following Address prepared by the Managers, and presented to the House of Assembly, viz.

To the Honourable the REPRESENTATIVES of the Freemen of the Province of Pennsylvania, in General Assembly met,

The ADDRESS of the Managers of the Pennsylvania Hospital.

Sheweth,

THAT the said Hospital, founded about eight Years since, with the Approbation, and by the Assistance of the Assembly, hath been hitherto supported by the Contributions of private Persons; and by the Divine Blessing on the Endeavours of the Physicians, upwards of Three Hundred distressed Persons have been cured of various Disorders of Body and Mind, under which they had languished; and many others have been considerably relieved, and thereby restored to a Capacity of being serviceable to themselves and the Public.

That the Two Thousand Pounds contributed by the Assembly, towards the Building, being long since expended, we have been under the Necessity of applying most of the Contributions obtained from private Persons the last three Years towards completing the Work, and of Course are prevented from encreasing the Capital Stock; the annual Interest of which is the only Fund we have yet received for the Support of the Institution.

That

That the Number of Patients, who from all Parts of the Province apply for Admittance, is lately much increased, so that upwards of One Thousand Pounds is expended more than our Capital Stock; and as the Benefits received by our distressed Fellow-subjects are daily more known and considered, the Prospect of our increasing Expences exceeds any rational Expectations we can indulge, of being able to support the House, according to the original Design, without some further Assistance from the Public.

We therefore recommend the present State of the Hospital to your serious Consideration, and hope the same benevolent Disposition on which it was founded, will still be manifested by the Assembly of Pennsylvania, to promote so laudable an Institution, gradually becoming of the most extensive Service to this Part of the King's Dominions.

A COMMITTEE being appointed to examine and state the Accounts, in order to lay them before the Contributors, at their approaching Annual Meeting, reported the State thereof to be agreeable to the following Abstract.

BESIDES several Out-patients, who have been attended by the Physicians, and received Medicines from the House gratis.

WHICH Abstract and Accounts, were published in the Gazette of July 12, 1759; with the following Remark, viz.

“ FROM this View of the State of the Accounts, and by comparing the Abstract
 “ of the Cases with those formerly published, the Public may observe the great an-
 “ nual Increase of the Number of Patients, and consequently of the Benefits of the
 “ Institution; which Consideration, together with that of the additional Conveni-
 “ ences for their Reception and Accommodation, which have been attended with
 “ considerable Labour, and unavoidable Expence, must undoubtedly afford an equal
 “ Degree of Satisfaction to those who are already Benefactors to this Charity; and,

“ we hope, will render an Apology unnecessary to others, who have hitherto neglected or deferred entering the List of Subscribers, for a Repetition of our Request for their Assistance, in so commendable a Work ; and it being impracticable to make a personal Application to all such, especially to those who live at a Distance, it is to be hoped no Offence will be taken, to the Prejudice of the Charity ; but that all who are disposed to contribute, will pay their Subscriptions (or enter their intended Benefactions) to the Treasurer, or either of the Managers, as heretofore notified.

“ If notwithstanding what has been frequently urged in Favour of this Institution, such who are sensible of the undeniable Advantages of an Hospital, do yet withhold their Bounty, on a Supposition of the small Benefit which their Neighbourhood is to receive from it, they will please to consider, That they can never hope to do any Service for their own Poor, till they have made it more practicable to do so, by the Assistance they lend those who are already engaged in it ; which is the only probable Means of bringing the Charity nearer to themselves, and therefore it is much to be wished, that if they have it not in their Power to begin this Charity at home, they would begin it in a Place where it can be well attended by Physicians and Surgeons, and where it is necessarily formed on so large a Bottom, as to require more Help than can be had from those only who are at Hand, many of whom have not more interested Reasons for their Bounty, than if they lived in a distant Country ; their Motives being to promote a Spirit of Goodness and Humanity, which may extend itself on every Side, by administering the most effectual Relief to all deserving Objects, without considering from whence they come.----- They are encouraged to do it, by the great Success which hath attended this good Work in every other Place ; the moral, religious, and civil Benefits of which, being visible, certain, and lasting, do immediately tend to the Honour of the Christian Religion, and the Happiness of Mankind.”

ON the Seventh of *Fifth Month (May)* 1759, the following Members of this Corporation were elected Managers and Treasurer, viz.

JOHN REYNELL,
THOMAS GORDON,
SAMUEL RHOADS,
STEPHEN SHEWALL,
JAMES PEMBERTON,
ISAAC GREENLEAF,

EVAN MORGAN,
ISRAEL PEMBERTON,
SAMUEL MIFFLIN,

AND several, whose Cases did not require, or were not judged suitable to be taken into the House, have, as Out-Patients, received the Benefit of Medicines from the Hospital, and the Advice and Care of the Physicians, *gratis*.

THE Contributions which have been generously made this Year, have enabled the Managers to proceed in compleating some necessary Conveniences, which were immediately wanted, and to receive and entertain a much larger Number of Patients in

in the House, than their Stock would permit before ; and if the Spirit of Charity towards this Institution continues, with equal Warmth hereafter, it will soon become more extensively useful.-----To give it its proper Weight with the Public, let it be considered, that in a City of large Trade, many poor People must be employed in carrying on a Commerce, which subjects them to frequent terrible Accidents.-----That in a Country, where great Numbers of indigent Foreigners have been but lately imported, and where the common Distresses of Poverty have been much increased, by a most savage and bloody War, there must be many Poor, Sick, and Maimed.-----That poor People are maintained by their Labour, and, if they cannot labour, they cannot live, without the Help of the more Fortunate.-----We all know, many Mouths are fed, many Bodies clothed, by one poor Man's Industry and Diligence ; should any Distemper seize and afflict this Person ; should any sudden Hurt happen to him, which should render him incapable to follow the Business of his Calling, unfit him to work, disable him to labour but for a little Time ; or should his Duty to his aged and diseased Parents, or his fatherly Tenderness for an afflicted Child, engross his Attention and Care, How great must be the Calamity of such a Family ! How pressing their Wants ! How moving their Distresses ! And how much does it behove the Community to take them immediately under their Guardianship, and have the Causes of their Misfortunes as speedily remedied as possible ! Experience shews, this will be more effectually and frugally done in a public Hospital, than by any other Method whatever.

CAN any Thing in this chequered World, afford more real and lasting Satisfaction to humane Minds, than the Reflection of having made such a social Use of the Favours of Providence, as renders them, in some Measure, Instruments which open a Door of Ease and Comfort to such as are bowed down with Poverty and Sickness ; and which may be a Means of increasing the Number of People, and preserving many useful Members to the Public from Ruin and Distress ?

THAT this is a Satisfaction which the Contributors to the *Pennsylvania* Hospital have a just Claim to, all may be assured, by visiting the House, examining the Patients, and considering the extraordinary Cases which are there received, and happily treated ; among which, it is hoped, they will find sufficient Instances to convince them, that every Individual, in this and the adjacent Provinces, are interested in the Prosperity of this charitable Institution ; and induce them to consider, that "*Riches make themselves Wings, and flee away ; but blessed is he that considereth the Weak, Sick, and Needy, the Lord will deliver him in Time of Trouble.*" And that it is better to give Alms, than to lay up Gold.

AND the Physicians and Surgeons for the present Year, made Choice of by the Managers, were Dr. *Thomas Bond, Phineas Bond, Thomas Cadwallader, John Redman, William Shippen, and Cadwalader Evans*; who manifested their usual Regard to the Institution, by undertaking the Service, and continuing their diligent Care and Attention thereto.

By a Letter from *Thomas Hyam*, Merchant, in *London*, dated the 7th of *Sixth Month*, the Managers were notified, That in an Act of Parliament lately passed, entituled, "*An Act for vesting certain Estates in Pennsylvania, New-Jersey, and Maryland, belonging to the Proprietors of a Partnership, commonly called, The Pennsylvania Land-Company in London, in Trustees to be sold; and for other Purposes therein mentioned,*" he had been instrumental in the proposing and obtaining a Clause for granting to this Hospital, the Sum of Money which will remain unclaimed on the 24th of *Sixth Month*, 1770, arising from the Sale of the said Estate.

THE Managers being desirous to testify their grateful Sense of this Instance of Regard and Friendship, embraced an early Opportunity of returning their Acknowledgments to the said Gentleman, for his favourable Notice of our Hospital; and at the same Time acquainted him with the present Circumstance of our Stock, and a Summary Account of the general State of the Charity.

THE Experience of above nine Years, has given undeniable Proofs of the Necessity and Usefulness of this laudable Institution; and, it is hoped, the Perusal of the foregoing Account, with what has been heretofore published, will afford pleasing Reflections to the beneficent Contributors, by whose generous Assistance and Encouragement, it has gradually arrived to its present Situation, capable of extending Relief to the Distresses of many miserable Objects, depressed by Poverty and Disease.--- And the Managers have the Satisfaction to observe its Reputation daily to encrease, by the frequent Applications for the Admission of Patients from various Parts of this and the neighbouring Provinces, which they flatter themselves they shall still be enabled to continue and enlarge, by the future Benefactions of many charitable Persons from distant Places, as well as those of our own Country, who have yet delayed contributing, the affluent Circumstances of many of whom will easily admit of their imparting a Share of the Blessings they enjoy, for the Benefit of such, whose Indigence and Miseries claim the Attention of every compassionate Heart.

It would be a Neglect of that Justice which is due to the Physicians and Surgeons of this Hospital, not to acknowledge, that their Care and Skill, and their punctual and regular Attendance, under the divine Blessing, has been a principal Means of advancing this Charity to the flourishing State in which we have now the Pleasure to view it.

RELYING on the Continuance of the Favour of Heaven, upon the future Endeavours of all who may be concerned in the Management of the Institution, for its further Advancement, we close this Account with the Abstract of a Sermon, preached before the Governors and Subscribers to the Infirmary at *Northampton*, in *Great-Britain*, on the 24th of *September*, 1750, by *Thomas Hartley*, Rector of *Wenwick*, &c. viz.

‘ I COME, thirdly, to speak of Charity, under View of Beneficence to the Poor; and in this Light we behold it in its Fruits, as the Principle called forth into Act, and which may therefore properly be styled the Expression or Evidence of our Charity, as it respects the temporal Wants of our needy Brethren.

‘ AND here let it be observed, that as true Charity always produces this Effect to the Extent of our Power, so it is this inward Disposition that dignifies and consecrates the outward Act: For as there may be a mistaken Zeal for Religion, even to the giving our Bodies to be burnt for what we may call such, and yet without any true Love for God in our Hearts; so likewise the same Apostle tells us, that we may bestow all our Goods to feed the Poor, and yet, notwithstanding such a Distribution, be void of the Spirit of real Charity. But I am now speaking of, and recommending that Kind of Beneficence, which is the Fruit of Christian Benevolence; and among the various Occasions which offer for the Exercise of it, the Relief of the sick and lame Poor, under the Provision of a publick Infirmary, is that which lays Claim to our present Attention.

‘ AND here it may be remarked, in Behalf of these Institutions, which I think holds true of few others, even the most excellent, that the Invention of Man has not yet been able to furnish us with any Objections to them; which Argument concludes no less strongly for their confessed publick Utility, than for their being
‘ founded.

‘founded on the most allowed Principles of Humanity. Many Considerations offer, which powerfully recommend Foundations of this Kind to our Encouragement and Support, and some which challenge a Preference of Regard to them above most others.

‘As first, if we consider the Greatness of the Distress.-----Poverty, joined to Sickness, or to an ulcerated, broken, or dislocated Frame of Body, bears doubly hard upon human Nature, and Eloquence must fail, where such complicated Sufferings cannot move: For a *Lazarus*, at the Gate, is indeed a most affecting Orator, where the Heart is not hardened to a Degree of Insensibility more than brutal.

‘A SECOND Recommendation of these Houses of Mercy is, that in this Exercise of our Bounty we are safe, both with respect to the Objects and the Application of it: As to the former, due Provision is made for sufficient Information concerning the Poverty of the Parties to be admitted: And as to their bodily Maladies, there are few Cases which do not explain themselves by corresponding Symptoms, or can elude the skilful Observations of the Persons appointed to inspect and examine them; so that it is not Pretence, but Reality, not an artful Story, but actual Distress, that here solicits our compassionate Regard.

‘A THIRD Excellency of this Charity is the Care taken to promote and expedite, in the best Manner, the Cure of the Patients, by a voluntary, regular, and gratuitous Attendance of Physicians and Surgeons, of approved Judgment and Character in their Professions, who, on that Account, may justly be stiled principal Benefactors to this excellent Work, whilst we have the Satisfaction of seeing the Benefit intended to the Poor by our Contributions taking Effect at the easiest Expence, and thereby rendered the more extensive.

‘WE read, that Almighty God, upon taking a Survey of the six Days Work of Creation, pronounced of every Thing which he had made, that it was very good: How beautiful and perfect then must he have been in his better Part, for whose Sake all Things were created! How excellent that Creature, who was made in the Image, and after the Likeness of his Creator! But he lusted after the Vanity of Time, and so lost the Riches of Eternity; together with his Innocence, his Divine Light and Love, and Purity departed from him.-----*God made Man upright, but he sought out many Inventions*, Eccles. vii. 29. He sought to be happy independently of God, and so lost his Happiness in him: Hence by Nature our sad Alienation from the Life of God; instead of heavenly Wisdom, a serpentine Craft; instead of Divine Love, gross and corrupt Affections; and in the Room of that perfect Harmony in all its Powers and Faculties, which tuned the Soul to Peace, all the Discord and Rage of conflicting Passions.-----Behold, O Man! in this thy aggravated Misery of a distempered Soul and Body, the Greatness of thy Fall, and sad Apostacy! But behold also the Greatness of Redeeming Love, the infinite Compassion of thy so much neglected Saviour! who, *when thou wast cast out in the open Field to the Loathing of thy Person, passed by thee, and when he saw thee polluted in thine own Blood, said unto thee,---Live. I passed by thee, and looked upon thee; and I spread my Skirt over thee, and covered thy Nakedness; yea I swore unto thee, and entered into a Covenant with thee, saith the Lord God, and thou becamest mine*, Ezek. xvi. 5, 6, 8.

‘ THIS Display of our Lord and Saviour’s Commiseration and Love to the fallen human Race, is beautifully figured in the Mercy which the good *Samaritan* shewed to the poor wounded Traveller, that fell among Thieves.--- The Priest and the Levite passed by, but afforded him no Relief; for neither the Law nor the Levitical Ministrations could avail to Man’s Salvation; such Help could only come from the great Physician of Souls, and Friend of Sinners, *who himself took our Infirmities, and bare our Sicknesses*, Matt. viii. 17. And *the Lord that healeth is his Name*, Exod. xv. 26. But tho’ this be the Inside and Spirit of the Parable, yet the Moral is drawn from the Outside and Letter of it. Did the *Samaritan* shew Mercy to the wounded and distressed *Jew*, ministring to him the Means of his Cure, and defraying the necessary Charges of it? *Go and Do thou likewise*; be merciful after thy Power to All, and shew thy Love to God, by this Proof of thy Love to thy Neighbour; *For whoso hath this World’s Good, and seeth his Brother have Need, and shutteth up the Bowels of his Compassion from him, how dwelleth the Love of God in him?* 1 John iii. 17. The Application comes home to us, as Fellow-Christians, with additional Force; and the Occasion of our present Meeting gives a particular Emphasis to it: And therefore let us turn our Thoughts to the *House of Mourning*, Eccles. vii. 4. for we are told that *the Heart of the Wise* is there, and thence learn a Lesson of Humility, a Lesson of Gratitude, and an Exercise of Charity.

‘ WERE I to consider only my own Unfitness to be your Solicitor this Day, I should have much Reason to be diffident of Success; but when I consider whose Cause I plead, when I consider before whom I plead, and, above all, when I consider in whose Name I plead, I will not, I cannot think that I shall plead in vain: Nor need I here to fetch any Weapons from the Armoury of Eloquence, nor seek to engage the Passions on my Side with artificial Strains of Rhetoric, seeing the *Infirmity* itself affords the most persuasive Motives to urge a compassionate Relief; and it would be sufficient for this Purpose, would Time permit, to set open to your View, that Theatre of Woes, where pining Atrophy, Convulsions, agonizing Throws, corroding Ulcers, the Torture of broken and dislocated Bones, and various other Maladies and Disasters, incident to the human Frame, form one complicated Scene both of visible and audible Distress. Look down, you wealthy and honourable Ones, from your Height of Opulency and Splendor, and in these Sons and Daughters of Affliction acknowledge your Brethren, and own yourselves to be but Men; for, *did not he that made you make them, and did not one fashion both in the Womb?* Job xxxi. 15. Whilst in the Phrase of *Job*, Job xxix. 6. you wash your Steps with Butter, and the Rock pours out to you Rivers of Oil, let the Streams of your Bounty refresh the Hearts of the Sorrowful, and your Abundance be the Supplement to their Wants.-----Thus may you excel in Goodness as in Greatness, and be accounted worthy of double Honour.

‘ I NEXT address myself to you who are in a middle Station, placed safely between the two Extremes of Affluence and Indigence, and so possessed of what *Agur* prayed for, Prov. xxx 8. And, as you know no Want yourselves, extend freely your Assistance to those that do. The Law commanded to help the Beast of our Enemy fallen under his Burden, Exod. xxiii. 5. bring not then a Reproach upon that holy Name by which you are called, by refusing to help a Neighbour, a Fellow-Christian,

Christian, being burthened with his Infirmities: A Retrenchment of the Vanities, Superfluities, or in the fashionable Expences of Life, will amply supply the Means of Beneficence to your distressed Brethren; and by such a Christian Piece of Economy, you will join the Practice of two Duties together, whilst to that of *Charity* you add Self-denial for Charity's Sake.

LASTLY; As to you whose Portion in the good Things of this Life is small, tho' yourselves no less dear to God on that Account, I must call upon you also for a Token of your Love. It was ordained under the Law, in the Matter of Offerings, that the Person who was not able to bring a Lamb, should bring two Turtle-doves, or two young Pigeons, *Lev. v. 7. and xii. 8.* for no one was to *appear before the Lord empty*, *Exod. xxiv. 20.* Let not the Love of Christ, that perfect Law of Liberty, less constrain you: Let not the Free-will Offering of your Christian Charity come short of the Command of a *Jewish Oblation*: If thou hast but a little, yet be merciful after thy Power, and *do thy Diligence gladly to give of that Little*, *Tob. iv. 8.* The Little that thou givest will sanctify the Little that is left, and, trust in the Lord, thou shalt have no Lack.

THIS Application to you all, of every Degree, on the Subject before us, comes backed with a Motive of undeniable Force, *viz.* That our blessed Lord has declared his Acceptance of that Relief which you afford to your afflicted Christian Brethren from a Spirit of *Charity*, as done to himself; for such has he appointed his Substitutes for the Receipt of it; I call upon you then, for *Christ's* Sake, that you be *ready to distribute, willing to communicate*, *1 Tim. vi. 18.* or if this Argument fails, there remains at least one, which, if rightly laid to Heart, I am sure must prevail, which is, that we all stand in Need of Mercy, and therefore ought to shew it: I call upon you therefore, for your own Sakes, by the Love you bear to your immortal Souls, that you come not short of the Promise of Him who hath said, *Blessed are the Merciful, for they shall obtain Mercy*, *Matt. v. 7.*

AND now having pointed out that most excellent *Way of Charity*, or Love to God, and our Neighbour, that Gospel Way of Pleasantness, that sure Path of Peace leading on to Glory, what remains but that we walk therein. We are called Christians, professing one Faith, one Lord, one Baptism: Let us shew ourselves to be such, not in Word only, but in Deed and in Truth; whilst our Faith worketh by Love, and our Love by shewing Mercy to the Poor.

*** The House of Representatives of this Province, having for divers Years past voted considerable Sums of Money for the Services of the Government, which have been issued in Paper Bills of Credit, several of the Inhabitants of Philadelphia, already Contributors, and some others, concurring in a Desire for the Prosperity of this Hospital, voluntarily offered to be nominated Signers of the same, and generously bestowed the Wages, usually allowed for such Service, for promoting the good Purposes thereof, whereby the Sum of One Thousand Eight Hundred Thirty-eight Pounds Seventeen Shillings and Sixpence has been added to the Contributions, and proved a very seasonable Assistance. The Sums respectively thus contributed, are included in the foregoing List, and are marked thus *.

N. B. During the Printing this Account, considerable Contributions have been obtained, which brings the foregoing List down to the 16th of July, 1761.
