## EXTRACTS

*From an Act to invest the Mayor, Aldermen, and Commonalty of the City of New-York, with adequate powers in relation to certain objects of importance to the police and health of the said city.*

Passed, April 2, 1803.

WHEREAS the general welfare of the state is connected with the safety and health of the city of New-York, which has been visited by destructive and epidemic disease, the causes of which, as far as human wisdom can discover, ought to be removed, and such measures adopted, as, by divine favour, may prevent the return of that fatal malady.

And whereas it is represented to the legislature, that noxious exhalations from sunken and damp lots of ground, deep damp cellars, narrow and confined streets, foul and ill-constructed sinks, and privies unfinished, water-lots, foul slips, putrid and unsound provisions, and other evils of a similar nature, together with the practice of interring the dead in the heat of summer,

in improper places, and without due precautions, are among the causes to which the existence or malignity of that disease may be in a great measure attributed: Therefore, to remove the said evils,

1. *Be it enacted, by the People of the State of New-York, represented in Senate and Assembly,* That the Mayor, Aldermen, and Commonalty of the said city, in Common Council convened, shall have full power and authority to make and pass such by-laws and ordinances as they shall from time to time deem necessary and proper, for the filling up, draining and regulating of any grounds, yards, or cellars within the said city, that may be sunken, damp or unwholesome, or which they may deem proper to fill up, drain, raise, lower or regulate; and also for causing all such lots of ground in the said city, adjoining to Hudson's river or to the East river or Sound, as they may from time to time think proper, to be filled up with wholesome earth or other solid materials, so far into the said rivers respectively, as they shall from time to time deem expedient for promoting the health of the said city; and for compelling the proprietors of such lots to make suitable bulk heads on, adjoining or opposite to such lots, and to raise and fill up the same with such materials and in such manner and within such times as the said Mayor, Aldermen and Commonalty shall from time to time direct; and also for filling up, altering and amending all public slips in the said city, at such times and in such manner as they may deem proper; and for filling up or altering and amending all sinks and privies within the said city, and for directing the mode of constructing them in future, and for causing subterraneous drains to be made from the same, where they may think it necessary; and for regulating, or if they find it necessary, preventing the interment of the dead within the said city; and for the better regulating of boarding houses and taverns in the said city, and the preventing the resort of crowds of disorderly persons to them; and for pre-

venting the digging or turning up of made ground, or grounds formerly covered with water, during the summer months, without their permission.

2. *And be it further enacted*, That such penalties may be contained in such by-laws or ordinances, as the said Mayor, Aldermen and Commonalty, shall or may from time to time think proper, in order to enforce a prompt and punctual compliance with the same, and for the punishment of all offenders in the premises, not exceeding *one hundred dollars* for each offence.

3. *And be it further enacted*, That it shall and may be lawful for the said Mayor, Aldermen and Commonalty, in Common Council convened, to appoint one or more persons as inspectors of lots in the said city, who shall have power at all times between sun-rise and sun-set, to enter into any cellar, lot of ground or building of any kind, and to examine the state thereof and to report the same to the Common Council, whenever he or they shall judge that the health of the city may require any alterations or regulations therein.

5. *And be it further enacted*, That it shall and may be lawful for the said Mayor, Aldermen and Commonalty, in all cases where they may deem it necessary, for the more speedy execution of the said by-laws and ordinances, or any of them, to cause all such works as may be necessary for any of the purposes aforesaid, or any part thereof, to be executed and done at their own expense, on account of the persons respectively upon whom the same may be assessed, and shall have full power and are hereby authorized to levy the same, with lawful interest, and all reasonable costs and expenses attending such proceedings, by distress and sale of the goods and chattels of the proprietors or occupants of the property upon or by reason of which any such sum shall have been assessed, or to recover the amount of every such expense, by action of debt, in any court of record, from the persons

respectively on whose account the same shall have been incurred, their respective heirs, executors or administrators, in all which actions they shall also recover lawful interest upon the said amount, with full costs of suit.

6. *And be it further enacted*, That the amount of every such expense which the said Mayor, Aldermen and Commonalty shall pay as aforesaid on account of others, shall be a real incumbrance on the houses and lots, in respect to which such assessments as aforesaid shall have been made, and shall bear lawful interest until paid; and that the same may be recovered, or the payment thereof, with costs, enforced in like manner as if the said houses and lots were mortgaged to the said Mayor, Aldermen and Commonalty, for the payment thereof.

7. *And be it further enacted*, That wherever any person shall die in the city of New-York, the physician or surgeon who shall have attended such person, as a physician or surgeon, during his or her last sickness, shall leave a note in writing, signed with his name, with some one of the family in the house where such person shall have died, specifying the name and apparent age of the deceased, and the disease of which he or she shall have died; and every physician or surgeon refusing or neglecting to make and deliver such note, shall forfeit the sum of *fifty dollars*; and that no sexton of any church, or other person having charge of any cemetery, vault or burying ground, in the said city, shall permit any dead body to be interred therein, until he has received such note, in writing, so signed as aforesaid; or in case no physician or surgeon shall have attended such deceased person, or the physician or surgeon who did attend shall have neglected or refused to leave such note, then a like note signed by some of the family in which such person shall have died, the contents of which note in writing, shall be entered by such sexton on a blank schedule, to be furnished by the clerk of the city and county aforesaid,

and delivered, together with the said schedule, on the Saturday in every week, to the said clerk, for publication, in such form as may be designated by any present or future ordinance of the Mayor, Aldermen and Commonalty of the city of New-York: and that every sexton, or other person having charge of any place of interment, neglecting or refusing to perform any of the duties required by this act, shall forfeit the sum of *twenty-five dollars*.

8. *And be it further enacted*, That every practitioner of physic in the said city, shall, whenever called upon for that purpose, by the Mayor, or in his absence, by the Recorder, give his opinion in writing, as to the existence of any infectious or contagious disease in the said city; and that the said Mayor may, when thereunto required, if such opinion will, in his opinion warrant it, deliver certificates under his seal of office, to masters of vessels sailing from the said city, stating the general health of the said city.

12. *And be it further enacted*, That whenever any putrid or unsound beef, pork, fish, hides or skins of any kind, shall be found within the said city, it shall be lawful for the said Mayor, Aldermen and Commonalty, or any one of the inspectors of those articles, or any of them, or any person or persons acting under them, or any of them, to cause the same to be destroyed, by starting it or casting them into the stream of the said rivers, below low water mark, and at a suitable distance from the shore, or in such other manner as the said Mayor, Aldermen and Commonalty, shall from time to time direct.
